[DISPATCHES TO THE OREGONIAN.]

EASTERN DATES TO OCT. 2.

EASTERN STATES.

Additional New York News.

NEW YORK, Oct. 1.—Ashbury's yacht, the Livonia, which arrived to-night, made the run from Cowes to Sandy Hook in twenty days and three hours. Her voyage was unusually stormy. She was hove to thirteen hours on Sept. 11th, and for thirty-three hours, on the 10th and 11th, in a hurricane. H. Horne, of Bell's Life, is a passenger.

Horace Greeley arrived here this evening in good health, well pleased with his western trip.

A gentleman, lately from Havana, says reports of pacification of insurgent districts are false. No surrender of any republican troops or leaders had occurred; and as to reinforcements from Spain, that was untrue also. Reported arrivals of troops from Europe were lies. Only seventeen hundred Spanish soldiers had landed in Cuba since January 1st, and these had been used up. There is no thought of surrender among the Cubans. It is further stated that the Spaniards make use of alleged frauds at New York and Washington, as arguments against Republican self-government.

NEW YORK, Oct. 2.—Registrar Connolly has not yet been arrested. He is a Tammany delegate from the 17th Assembly District to the Rochester Convention. Justice Coulter stated that he would issue an order of arrest to-morrow. In any case it is probable the affair will result in such way as to enable Connolly to go to the Convention.

The last issue of a weekly pictorial paper contained a cut representing Hall, Tweed, Sweeny, and Connolly in convict dress, heavily manacled. The Police, by order of Mayor Hall, seized the whole edition.

Accident near Wheeling.

WHEELING, Va., Oct. 1.—By breaking of the cable, in the Suspension bridge over Wheeling Creek, five persons were thrown a distance of thirty feet. Thos. Callaghan and James Kline were killed instantly. Another has since died; others are badly injured.

Yellow Fever at Charleston.

CHARLESTON, S. C., Oct. 1.—No deaths from Yellow fever have occurred in the past twenty-four hours.

More About the Tammany Thieves.

NEW YORK, Oct. 1.—Tweed says the Department of Public Works has money enough to meet all liabilities for a long time to come.

It appears that Ingersol has really been served with a summons in a suit for the recovery of $5,000,000, or thereabouts, which are alleged to have been fraudulently obtained during 1869 and 1870. He is to appear for examination before Judge Barnard next Friday.

Judge Barrett to-day asserted that criminal proceedings would be commenced this week against the ring.

Arrangements for the reception of the Grand Duke of Alexis are completed. They include an escort by the city military reviews, visits to points of interest about the city, reception ball, etc. The Duke will probably go on to Washington and pay his respects to the President.

WASHINGTON CITY.

Financial Matters.

WASHINGTON, Oct. 1.—The Secretary of the Treasury has instructed the Assistant Treasurer at New York to buy two millions of bonds each Wednesday, and sell two millions of gold each Thursday in October.

The Comptroller of the Currency will soon call for a report on the condition of National Banks. Several of the bureau officers in the Treasury and other departments, have already accumulated data for official reports.

BY ATLANTIC CABLE.

French Affairs.

PARIS, Oct. 1.—General Manteuffel has replied to the note of Thiers, complaining of delay in the execution of the department of Oise by the Germans. He says delay is caused by a misconception of the orders. The evacuation is to be resumed to-day.

Bismarck refuses to accept article 3 of the customs treaty. Thiers has abandoned the article and telegraphed for fresh proposals.

The journals of Brussels contradict the rumor that Belgium had refused to modify the treaty of commerce with France.

Napoleon's Intrigues.

Supporters of the empire are becoming bolder in their intrigues, and agitate openly for restoration. Clement Duvrenois, editor of the new Bonapartist paper, says Thiers is failing, and the country will naturally return to the Government which gave it twenty years of order. Assurances are given at Versailles that the difficulties in the way of the ratification of the customs treaty with Germany have been overcome.

LONDON, Oct. 1.—Dispatches from Great Grimsby give harrowing details of shipwrecks in full sight of people on the shore, during the great gale. The master of the American ship *Bertha Thayer* was swept from her deck during the gale, and drowned off Sunday Isle. The vessel put back to Penarth Roads. The steamer *Sunderland* with 7 hands and an Italian brig with 9 persons on board, foundered off the mouth of the Humber during the gale.

CALIFORNIA.

From San Francisco.

SAN FRANCISCO, Oct. 2.—John McCullough has purchased for $1,000 the right to play Florence's Oileen Oge on the Pacific coast, and is now preparing to bring it out in magnificent style at the California theater.

A drunken row took place at School House station, San Mateo county, last night, in which a man named Morton Murphy and two Carey brothers, all more or less intoxicated, were engaged. Murphy was horribly chopped and mangled with hatchets by the others who escaped, leaving him in a supposed dying condition.

One of the big seals brought last week from Santa Barbara, died at Woodward's Gardens yesterday, apparently from excessive heat. No hotter day than yesterday was ever seen in San Francisco, as the thermometer in different localities show.

CURRENT NOTES.

The State Fair of California is termed a "great success" because "several hundred thousand dollars changed hands on the races."

America pays France $4,000,000 a year for sardines, and now a Brooklyn man has found an American fish which, it is predicted, will supercede the French article entirely in delicacy, and as to expense, they only cost half as much.

The Emperor Napoleon's horses are said to have brought excellent prices, but the relevancy of the world, despite the announcement that they were in wretched condition, hardly appears from the prices paid. The highest single horse brought $810; the highest pair, $1,100; and the sixteen sold in all brought but $7,808, an average of $488—not a large sum for a stud fit for an Emperor's use.

The Confederate Powder Works at Atlanta, Georgia, have recently been sold. Most of the powder used by the rebels in the war was manufactured there, and the *Constitutionalist* says there was only one explosion during the whole time, which was in the granulating mill, situated some distance from the others, and it was thought, at the time, that that was caused by a match introduced into the powder by a negro before it was carried into the mill.

A New Jersey paper asserts that the father of a lad belonging to Whippany has received the message given below, which the lad forwarded by carrier-pigeon from his vessel, the home of the bird being at Montclair. The Trenton *Gazette* says a calculation of the time showed that the bird averaged one hundred and eighty miles an hour:

DEAR FATHER: Sept. 10, 1871, lat. 32° 2 N., lon. 74° 17 W., 600 statute miles from Montclair, N. J.—I will let the young female bird Tempest go with this note at exactly 10 o'clock A. M., N. Y. time. She is good for 200 miles an hour. All well.

OREGON.

Measures have been taken to organize a hook and ladder company at Roseburg.

Joseph Boggs has become Division Agent of the Oregon and California Stage Company, in place of J. J. Comstock, resigned.

A citizen of Eugene, who sometimes travels, wishes the world to know that he is a person of quality and consequence. He therefore registers his name at the hotels, "———, Notary Public, ex-officio J. P."

J. J. Comstock has started his saw mill on Pass Creek. It will cut 50,000 feet in twenty-four hours. It is situated on the line of the railroad in an immense body of timber, and will be able to supply lumber for a large section of country, both ways.

The Eugene *Guard* wants the "new departure" submitted directly to Democrats of Oregon in their primary elections. It doesn't believe that one in a hundred will endorse the "heresy." Also, that it would be "an act of folly for the State Convention to force it on them."

In the October *Overland* appears the first of a series of articles by Mrs. Victor on the Oregon Indians. Much research is evinced in its preparation. Mrs. Victor's pen is doing much to fix and give permanency to the recollection of events of long ago in Oregon history. Her efforts are timely, for many of those events are fast becoming traditions merely, and are seen and heard but dimly "through the dark backward and abysm of time."

From the *Statesman*: Mr. William Taylor of Aumsville, has given us some particulars of a remarkable fish hole, situated on the upper waters of North Santiam river, which he describes as follows: There is a pool in the middle of the river bed which is about forty feet wide by sixty feet long, and has considerable depth. This pool is literally alive with fish, probably those ordinarily known as salmon trout. Of the quality he says he never ate finer, and as to size they range from eighteen inches to four feet long. Just above the pool and into it, the Santiam river pours through a crevice in the rock about 4 feet wide and forty-two feet deep. Mr. Taylor visited the place last Friday and says the wonder to him is that it never has become known, as he thinks it would be worth the while of summer tourists to resort thither. The fish only leave the hole in spawning time, and the shallows about it show this in the spawning season.

THE TERRITORIES.

Park Winans of Colville is delivering supplies by way of the upper Columbia river to British surveying parties who are in the field looking for a route for the Canadian Pacific Railway.

Very many emigrants are going into Stevens county, W. T., and settling in the country about Colville. A report to a Walla Walla paper says there is "an army of emigrants looking for locations."

The grand jury at Boise City have indicted J. H. Hawley for "forgery and false personations." He is the person who is accused of having forged a letter of resignation in the name of Judge Lewis of Idaho, by which that official lost his position.

The proprietor of the Olympia *Tribune* says he is losing money in printing a daily paper, but he proposes to continue. This is plucky. The *Daily Tribune*, considering the small extent of its field is a good paper. It ought to be supported by the community for whom it labors.

POLITICAL NOTES.

The new State government of California comes into power on the first Monday of December next. The Legislature will assemble on that day, and Governor Newton Booth will begin his four years' term. It has generally been erroneously supposed that the political year began in California in January.

Chief Justice Chase lately said to a correspondent of the Cincinnati *Enquirer* that he supports the Democratic party in its present position, but declares the Democrats have taken no new departure, and that the change is simply a return to the principles of Democracy as advocated by the great founders of the party. Chase is bidding for the Presidential nomination.

The Sacramento *Union* publishes official returns of the late election, from forty-five counties. There are five other counties yet to be heard from officially. Adding to the official returns the vote cast in these five counties in 1868, the *Union* holds that the total vote polled in California on the 6th ult. was about 118,068. The increase since 1868 in Humboldt, Tulare and San Bernardino—three of the five counties not yet officially heard from—will bring these figures above 120,000. The official majority of Booth in the forty-five counties heard from is 4,984. His official majority in the whole State will exceed 5,000.

The coils are closing in around the Tammany thieves. A dispatch of September 26th says: There seems to be but little doubt that Andy Garvey, the notorious plasterer, has disappeared, after selling all his ill acquired property at any price he could get. It is believed he went abroad, after realizing on his real estate and other sales about two million dollars. The story is that he is implicated in stealing the vouchers from the Controller's office, but the probability is that he has been induced by Tweed and Sweeny to run away, that he may bear the odium of the unpleasant development which yet may be made. The flight of Garvey is deemed very significant, and it is thought other Ring members like Ingersall, Keyser and others will soon run away. Many Democrats say Tweed and Sweeny will not be able to stand the pressure much longer, and that they may disappear at any time. A prominent Democrat says he knows Tweed in the last seven years has stolen from the public treasury at least ten to eleven million dollars, and Sweeny two thirds as much.

DWARFS.—Among the most noted dwarfs was Philetas, of Cos, who was distinguished, 330 years B. C., as a poet and grammarian. He was so diminutive that he always carried leaden weights in his pocket to prevent his being blown away by the wind. He was preceptor to Ptolemy Philadelphus. Another was Alypius, of Alexandria, a logician and philosopher. He was but one foot five and a half inches high. Among modern dwarfs John d'Estrix was brought to the Duke of Parma at the age of thirty-five years, wearing a long beard. He was skilled in the languages, and was about three feet in height. Jeffrey Hudson, an English dwarf, when a youth of eighteen inches high, was served up at table in a cold pie before the King and Queen, by the Duchess of Buckingham, in 1626. He challenged a gentleman who had insulted him to fight a duel, and the challenged party came on the ground armed only with a squirt. This led to another meeting in 1653, when he shot his antagonist dead. Count Borowlaski, a Polish gentleman of great accomplishments and elegant manners, was born in 1739, and lived in England for many years. He was fourteen inches high at one year of age, seventeen inches at six, thirty-three inches at twenty, and thirty-nine inches at thirty. His sister, Anastasia, seven years younger than himself, was so much shorter that she could stand under his arm. He died in England at the age of ninety-eight, in 1837. Charles Stratton (Tom Thumb,) Lavinia Warren and Commodore Nutt, whose average height is thirty-two inches, are the most recent dwarfs known to history.

Mayor Lee of St. Paul, Minnesota, has been sued for damages by two members of the chain-gang who, upon their refusal to work, were tied and to trees in the public park to induce them to be more industrious in future. They seek $10,000 each.

LAST NIGHT'S DISPATCHES.

[SPECIAL DISPATCHES TO THE OREGONIAN.]

EASTERN STATES.

The Tammany Theves.

Secret accounts giving the expenditures of the city government for the first quarter of the present year include costs for apportionment for special purposes, and show that immense sums were paid to fictitious names. In many instances the persons receiving salaries never performed any service, and some are incapable of doing it. The names of some professional bruisers are seen on the pay rolls. Jim Cussick and Joe Coburn are said to receive their monthly stipend under assumed names. M. Norton, State Senator, is said to have no less than twelve of these lucrative sinecures. Investigation of these matters has caused the greatest consternation among the city pay receivers.

Salaries for the Department of Public Works make yearly an aggregate of $400,000. The annual payment to the Legislative Department is nearly $300,000, and the cost of the annual service of the Mayor's office is nearly $50,000.

From San Francisco.

SAN FRANCISCO, Oct. 2.—The heat continues unabated to-day, and has been quite as hot as yesterday, if not hotter.

The rush of freight for the Southern coast calls for three steamers this week for San Diego. The *Orizaba*, with freight and passengers, goes to-morrow. The *Pacific* goes Wednesday with freight only, and the *California* Friday, with freight and passengers.

A lot on north side, between Leavenworth and Hyde, 50x137½ feet, sold at auction to-day for $11,200.

Riley, shot last week by Jordan, as was reported by his surgeon directly through the heart, is recovering.

Englike and Patton, who shot each other at Alameda, two weeks since, in a difficulty originating in Englike marrying Patton's affianced, are both recovering. Both decline to prosecute.

Belcher reached $400 in the Board this afternoon, and is held higher on the street.

It is reported that an error in the survey of the San Joaquin valley irrigating canal, which would have required the water to run up hill, contrary to custom and precedents, has been discovered, and in consequence, a new survey must be made. The change involving considerable expense.

Among the seventeen drunken or disorderly women in the calaboose last night, was one fine looking Irish woman, who was bailed out by her husband, a Chinaman, to whom she is legally married, and by whom, she has several children.

Murphy, chopped by a hatchet in the affray at the School House, in San Mateo, last night, is dead, and assailants are arrested.

SAN FRANCISCO, Oct. 2.—Several removals have been made in the Mint since the election. The parties removed are all old line Republicans, receiving the following note:

Dear Sir: Political pressure is so great in this office I find that it is impossible to give you permanent employment, and am compelled to advise you that your services are not required after this date. Signed by General La Grange.

The parties removed, appear to be personally obnoxious to one noted office seeker.

Mrs. Lane, residing on Silver Avenue, near the Five Mile House, was found dead last night with her skull broken. Her husband, who was drunk, and another man are under arrest on suspicion of murder. No charge was preferred against them. Lane says she fell down stairs and killed herself while walking in her sleep.

The report that the farmer, named Murphy, at School House Station, who was chopped with a hatchet last night, is dead, is false. Later advices say he is not seriously hurt.

Peter S. Sesser's stable, on Jessie street, with considerable hay; a house occupied by four families, Murray's paint shop, a blacksmith shop, a China wash house and M. Kane's dwelling, were burned to-day. The buildings were all wood and not valuable. Murray's loss is $1,500. He has $700 insurance. Sesser's loss is more, but half it insured for the total loss which is under $9,000.

The civil code Commissioners and a number of prominent lawyers, office holders and business men of San Francisco, met in consultation to day, and after considerable debate decided that a State revenue and equalization bill, based upon that of Massachusetts, would be drawn up and submitted to the Commissioners, who will probably report it to the coming Legislature with the recommendation that it pass.

Capture of Convicts.

The officers turned Morton and Black over to two ranchers living in the valley and started in pursuit of Roberts, and took him after two days chase and returned with him yesterday to the place they had left the other two, but could find no trace of them. It is supposed they were lynched by parties living near, as the feeling against them is very strong on account of the killing of Wm. Poor, the pony rider. Officers are expected here to-morrow with two convicts, Bigler and McCue, caught near Placerville.

The Daily Oregonian.

TUESDAY MORNING, OCT. 3, 1871.

A "New Party" Called For.

Not long ago the telegraph apprised us that Senator Schurz had made a speech at Nashville, which was received with great satisfaction by a large audience, drawn together from nearly all parts of Tennessee. The drift of the oration is indicated by the following paragraph from a report to a Chicago journal:

> Mr. Schurz was emphatic in his disapprobation of the policy of the present administration, and in his frequent expressions of apprehension of the result of our Republican institutions to follow its perpetuation in power, the only deliverance from which he considered to be through the co-operation of the sincere patriots of all parties in a political organization which would insure the obliteration of sectional bitterness from national politics. Such an organization would command the confidence and [illegible] the hearty co-operation of the [illegible] of his faith, who would support it in preference to the administration party, but could not conscientiously act with the Democratic party. Such a movement would receive the support of the entire German element of the nation, and true patriots of all parties, and result in a genuine restoration of the Union.

The impression which one receives from reading the above is, that Mr. Schurz is entirely too good a man to affiliate with any political party. He is so immeasurably above all other men that he cannot have anything to do with any existing political organization. He was very eager to make use of the Republican party to get to his present station; but now, as he says, "having reached the highest position that can be attained by any citizen of foreign birth," he kicks the ladder away, "scorning the base degrees by which he did ascend." Three years ago he contended for election to the Senate of the United States on the ground that he was a more faithful member of the Republican party than others who sought the position. He then had no "apprehensions of the result of our Republican institutions to follow the continuation of the Republican party in power." But now, having made as much use of the party as it [illegible], he [illegible] to spurn it from him. It has made him all he is; without it, he would now be in comparative obscurity, and if he and others like him could succeed in pulling it down they would fall with it, never to rise. Mr. Schurz sits in the Senate till 1875, or nearly four years longer. He has succeeded in giving his State to the Democrats, who will put a man of their own sort in his place at the earliest moment they can.

The idea of forming a "third party" is a favorite one with [illegible] who think they can call forth a great party very much as the bombastic Glendower could call spirits from the vasty deep. But they always find that [illegible] the Glendower spirit, fails to come forth on demand. These discontented politicians forget that parties are never [illegible] to accomplish individual ends or wishes. Before existing political parties can be broken up and a new organization formed, there must be a condition of things which calls for such a change. The time must be ripe for it; there must be ideas and principles involved which, primarily seek this method for their own enforcement. But it is evident that with the general course of the Republican party the country is satisfied, notwithstanding all that such revengeful politicians as Mr. Schurz may say to the contrary. Hence his attempt to [illegible] will end where Andrew Johnson's endeavor in the same direction ended.

Mr. Schurz, with a self-sufficiency which quite accords with his attempt to found a new party, virtually claims to own the Germans of the country, and to be able to wield them for his own purposes. He says that such a movement as he has chalked out "would receive the support of the entire German element of the nation." Right here he makes another [illegible] takes his departure from the Republican party and attempts to lead a movement which, if it has any result, would only throw the control of the country into Democratic hands, he can take no German Republican with him. Mr. Schurz is nothing to the "German element," about whom he talks so glibly. No man is anything to them, except as he is in accord with principles and ideas which they desire to see triumphant. Mr. Schurz can go out of the Republican party himself, but he cannot take the "German element" with him. He will discover his real position shortly, when he finds himself outside of all parties and no supporters in any quarter. Meanwhile he will also discover that he cannot pull down the [illegible] at will. If it could make him what he is, it certainly can do without him.

About Gen. McClellan's "Strategy."

The [illegible] of Gen. McClellan to the office of Controller of New York (which, however, he declined) gave Eastern papers an opportunity to say many funny things about his well-known "strategy." We quote a specimen:

> It seems like renewing the memories of a decade since to hear that Gen McClellan has not yet decided upon his next movement. He finds the enemy unexpectedly intrenched and fortified in his immediate front in overwhelming force. He deprecates the senseless clamor of ignorant civilians, and will move as soon as he gets ready, and not before. He is greatly in want of reinforcements, but will do his best with the forces at his disposal. He is maturing a plan for a thorough reconnoissance of the broken country lying between the Mayor's office and the Finance Department, and will require five thousand theodolites to perform the work satisfactorily. Those in use in this city are very defective. The only ones worth buying are manufactured by the firm of [illegible] of Breslau at the rate of two a month. So that nothing but the fiendish malice of the Jacobins could insist on his moving this month. Nevertheless he is a self-sacrificing patriot of the old Roman type, and if his official Tammany [illegible] require him to go forward he will do so, throwing on them all the responsibility, and determined to make the contest short, sharp and decisive. If he fails, theirs will be the blame. If he succeeds, the glory will be his. Meanwhile he will push the enemy to the wall, just as soon as he receives those theodolites.

There is an act on our statute book to enable a party [illegible] to swindle all persons who have business in the Courts. That this act, and the fellow of it in California, are unconstitutional, we have always believed. It is now announced that the constitutionality of the California act, of which ours is a close copy, has been questioned by Judge Wallace of the Supreme Court of that State. The point of constitutionality was not directly submitted to the Court, but the Judge, in passing, remarked that it was "not free from doubt that the act was constitutional." It was held that the designation of "litigant papers" was not in the nature of a contract either with them or their proprietors; that it is a special franchise, and that in case a litigant paper changes hands it ceases to be the paper designated, and another designation must be made.

New York Frauds and Attempts to Offset.

It has been observed that of late all the Democratic newspapers have been making a desperate effort to divert attention from the New York frauds by inventing senseless stories of frauds on the National Treasury amounting to hundreds of millions. Nobody believes these stories; they are so clumsy and extravagant that they confute themselves. Some frauds on the National Treasury there are; such have occurred at all times and under all administrations. But between the few defalcations reported under the Federal administration and the systematic and gigantic frauds in New York city there is no comparison. The Sacramento *Union* thus speaks of this matter:

> There is no comparison in the cases. The New York thieves have been plundering the city by millions for years, and not a Democratic paper attempted to expose the damnable rascality. No one of the Democratic party came out and exposed the knavery. But in the case of any irregularities committed by the subordinates of the departments of the Government, the facts have been promulgated by the heads of the departments themselves, or by the members of the party in power. The intention seems to be in one case to hide or be ignorant of theft on the largest scale, when party is involved, and in the other to ferret out and expose frauds, deeming the public interests of first importance. The two cases are not analogous. It is known that the stealings in New York have been great, and that they are stealings. The extent of them and where all the blame lies is not understood fully, and investigation is required to get at all the truth, that condemnation may be rightfully awarded. The departments at Washington have reported irregularities themselves and pointed out the persons on whom the delinquencies should fall. There has been no effort at concealment; and, besides, the amounts lost by the whole Federal Government, in all its ramifications, do not amount to as much as the Tammany "ring" has stolen in the single city of New York. The true parallel may be thus drawn: During Mayor Hall's administration the city and county debt of New York increased more than $63,000,000, and all on account of current expenses. The Federal Government has paid off debts amounting to more than $215,000,000 in the same time, besides paying current expenses. The Democratic administration of New York has trebled taxation in that city, while the Republican National Administration has reduced taxation more than $250,000,000 since the war. Surely there are not the grounds for suspicion and examination in the one case as in the other.

We have it from the Roseburg *Plaindealer*, which follows after the Washington *Patriot*, that President Grant intends to make himself an Emperor, that he has resolved not to surrender his office, that he is a conspirator against the life of the Republic, and we know not what else. It seems to be expected that pitiful stuff like this, which nobody reads except with contempt, will help into power the party whose organs give currency to it.

For several days the *Herald* has said nothing about the tariff on "razors." The eloquent razor strop man has probably left town, and the organ has no more of his speeches to work up into editorials.

The St. Louis *Democrat* was with Senator Schurz in the Missouri "bolt" last year, but refuses to follow him in his effort to disorganize the Republican party of the nation. In a recent issue it said: While Horace Greeley, Grinnell, Wentworth, Senator Schurz, and other disappointed politicians are roaming over the country denouncing President Grant, and asserting the impossibility of his re-election, the people of California and Maine have given a noble and most emphatic endorsement to his administration.

A list of California losses by rebel cruisers has been prepared and sent for adjustment under the Treaty of Washington. These losses are quite numerous, and consist for the most part of goods that were shipped on vessels burned by rebel cruisers.

No person ever got stung by hornets who kept away from where they were. It is just so with bad habits.

It is always in our power to make a friend by smiles; what a folly, then, to make an enemy by frowns.

TUESDAY MORNING, OCT. 3, 1871.

CITY.

A DARKEY TRIES AN ARTFUL DODGE.—Officer Walton arrested an inebriated darkey named Crawford for some offence yesterday forenoon, and was in the act of marching him off to jail. As the two were promenading along Front street, the darkey spied a passage through to First street (Millard & Van Schuyver's store which has a front on both the streets), and into this passage, along the passage and through the passage, on to First street went the darkey. After the darkey went the officer, using his legs at one end and his voice at the other, vainly urging the darkey to wait for him. The darkey, however, didn't conclude to wait. He wanted to go down town. The officer concluded to fire a gun over the fugitive's bow, thinking that might bring him to, but the effect was quite the reverse. The darkey didn't wait half as well as before. He went as if determined to beat the officer's bullet or die. He probably did, as there could be found no evidence on his person that the bullet had caught up with him. It is safe to say that nigger would have been running till this moment had not Charley Lawrence happened to come along just at that nick of time. Charley saw the black streak ahead, and the blue streak coming, and he knew there was something wrong. Accordingly Charley started on his pedal muscle, climbed that black streak till he found the darkey at the other end of it, and then the darkey stopped. Not because he wanted to, but because he knew that manifest destiny had him by the collar. The balance of the story is common place and uninteresting. To be brief, the darkey walked quietly up to the jail, and the officer was the only one of the two that went away.

PASSENGERS FOR OREGON.—The steamship *Ajax* sailed from San Francisco, on Sunday, for Portland. The following is a list of her passengers: L Hirsch and wife, A Goldsmith and wife, Wm Morton and wife, F Gerthing, wife and sister, G Tibbetts and wife, Mrs M J Williams and son, C G Dyer, E H Taylor, J Lucasis and wife, C B Bristol and wife, Miss E Maldren, A J Minor, Miss Minor, C H Stone, A L Stinson, P Powers, W Teldman, J Wilhelm, W G Taylor, W Robertson, David Ruth and family, L Lincker and family, John Smith and wife, C Lockett, H Kerpen, M Alberis, B Lucasis, Miss S Sanders, Mrs C Calkins and child, B Lewis, R Hirsch, L Sanders, G H Walker and family, M W Kennedy, S S Gordon, A G Reese, J T Butterfield, T Kahn, S B McCord, N Keezer and family, Mrs L Ach and son, Mrs Hall, Mrs E A Fay and two children, Miss A Zink, two Sisters of Charity, Rev Father Delorme, Capt. L Thurkelson, E Waters and wife, W Smith, G P Mote, H C Kettler, L Hinsman.

CHINESE HABEAS CORPUS CASE.—The respondent to the writ of habeas corpus, in the Chinese case, Lee Hou, appeared before Judge Deady yesterday and made his return to the writ. The petitioner, Han Que, thereupon asked for time to plead to the return, and the hearing was postponed till this morning. The respondent pleads in the first place that he has not restrained and does not restrain the woman, and in the second place that she is his wife. Considering the fact that a Chinese wife is, at least, no more than a slave, subject totally to the dictates of her husband, this pleading strikes us as very much of a piece with the plea of the old lady we have heard of on the charge of borrowing a kettle and returning it broken. She said, firstly, the kettle was sound when she returned it; secondly, it was cracked when she borrowed it; and thirdly, and lastly, she never had the pesky kettle.

LECTURE ON THE EARLY DAYS OF OREGON.—Rev. H. H. Spaulding, one of the pioneer settlers of the Pacific coast, has written a letter to a friend in this city, announcing that he will be here next Monday, and that he desires on that evening to defend the early pioneers of Oregon, especially the Presbyterian missionaries, in their successful, honorable, self-denying, bloody efforts to save the Pacific coast to the people of the United States, the Democratic Senate of Oregon and the present House of Representatives, U. S. "I will give a brief account, he says, "of the glorious success of our mission to Washington in the Senate of the U. S. last winter, the important action of the General Assembly of the Presbyterian Church at Chicago last May." Arrangements will be made by parties here to provide a hall for Mr. Spaulding. The address will be free.

PACIFIC RAILROAD GAZETTEER.—Mr. F. W. Byrod is in this city canvassing for the "Gazetteer and Directory of the Central Pacific Railroad and its branches," a book of 600 pages, to be used as a guide for travelers and immigrants. It will be at once a guide and a business directory, containing a general review of the towns along the line of the Central Pacific Railroad from San Francisco to Ogden; Oregon division from Sacramento to State line; Oregon and California Railroad from State line to Portland; San Jose branch and Visalia division; also, Sacramento Valley Railroad; and Utah Central Railroad from Ogden to Salt Lake City. The book complete in one volume will be ready for delivery in about six weeks.

INTERNATIONAL MONEY ORDERS.—After this date parties desiring to send money to any portion of the British Kingdom can procure international bills of exchange from the Postmaster of this city. The following are the rates of commission in United States currency to be charged: On orders not exceeding $10, twenty-five cents; over $10 and not exceeding $20, fifty cents; over $20 and not exceeding $30, seventy-five cents; over $30 and not exceeding $40, $1; over $40 and not exceeding $50, $1 25. No fractions of cents to be introduced in an order. United States Treasury notes or National Bank notes only received or paid.

NEW BOOKS AT THE LIBRARY.—A new work on the late European war, entitled "A History of the War between Germany and France," with biographical sketches of the principal personages engaged in the contest. To which is added a complete account of the revolt of the Commune, and the second siege of Paris, by James D. McCabe, illustrated with maps and engravings; also, a new scientific work called "Polar and Tropical Worlds," a description of Man and Nature in the Polar and Equatorial regions of the globe, by Dr. G. Hartwig, with illustrations, have been placed in the Portland Library.

THE GOLDEN CITY.—This San Francisco literary newspaper has recently passed into the hands of Gus DeYoung & Co., and it now appears like a thing redeemed from the dead and entered upon the roll of the living and lively. It is sprightly and readable in every column of every page. Mr. McCormick who favored us with the copy we have just seen, will take orders for it. As a literary journal, it is, in our estimation, greatly superior to the *Golden Era.*

ACCIDENT.—A little girl, daughter of Mr. A. M. Snyder, fell yesterday into a hole in the middle of the sidewalk on Fifth street, between Main and Madison, and received severe injuries. The hole was formerly made by the Water Co. for a tap and has never been filled since they removed their pipes. There are several other holes of the same sort in various places, into which persons might step in the night. They ought to be stopped at once.

GOOD TEMPLARS' ENTERTAINMENT.—The ladies of Nonpareil Lodge of Good Templars will give an oyster supper and an entertainment, to-morrow evening at their hall, corner of Madison and Third streets. The friends of temperance can spend a pleasant evening there, and at the same time aid a worthy Lodge.

NOT QUITE SO FAST.—Our informant in regard to the crossing of the Harrisburg bridge by the locomotive on Sunday was slightly mistaken. A temporary track was laid across the bridge and a small car with iron was run across by hand, but the locomotive has not yet crossed. This event is expected to occur to-day.

PASSENGERS OVERLAND FOR OREGON.—Passed Ogden, yesterday, bound for Portland, Mrs. S. M. Hicks. Passed Yreka, [illegible] to-day, by Oregon and California stage, bound for Portland: T. V. Paine, S. Kohn, T. V. Barnum, Mr. Barrett, H. Messer, A. H. Webb, Mr. Johnson & wife, and Mrs. Winston.

TOUR OF INSPECTION.—Mr. James Lotan, Inspector of boilers, and Capt. Geo. H. Flanders, Inspector of hulls for the District of Oregon, started yesterday afternoon, upon an inspecting tour to Umpqua river, Coquille river and Coos Bay. They will be absent, probably, a little over two weeks.

A COLORED SCHOOL MEETING.—A meeting of colored citizens was held last evening at the A. M. E. Zion church to consider the condition of the colored school.

The darkey didn't wait half as well as before. He went as if determined to beat the officer's bullet or die. He probably did, as there could be found no evidence on his person that the bullet had caught up with him. It is safe to say that nigger would have been running till this moment had not Charley Lawrence happened to come along just at that nick of time. Charley saw the black streak ahead, and the blue streak coming, and he knew there was something wrong. Accordingly Charley started on his pedal muscle, climbed that black streak till he found the darkey at the other end of it, and then the darkey stopped. Not because he wanted to, but because he knew that manifest destiny had him by the collar. The balance of the story is common place and uninteresting. To be brief, the darkey walked quietly up to the jail, and the officer was the only one of the two that went away.

PASSENGERS FOR OREGON.—The steamship Ajax sailed from San Francisco, on Sunday, for Portland. The following is a list of her passengers: L Hirsch and wife, A Goldsmith and wife, Wm Morton and wife, F Gerthing, wife and sister, G Tibbetts and wife, Mrs M J Williams and son, C G Dyer, E H Taylor, J Lucasie and wife, C B Bristol and wife, Miss E Maldren, A J Miller, Miss Minor, C H Stone, A L Stinson, P Powers, W Teidman, J Wilhelm, W G Taylor, W [illegible], David Ruth and family, L Lincker and family, John Smith and wife, C Lockett, B Kerpan, M Alberts, B Lucasie, Miss S Sanders, Mrs C Calkins and child, B Lewis, E Hirsch, L [illegible], C H Walker and family, M W Kennedy, S S Gordon, A G Reese, J T Butterfield, T Kahn, S B McCord, N Keezer and family, Mrs L Ash and son, Mrs Hall, Mrs E A Fay and two children, Miss A Zink, two Sisters of Charity, Rev Father Delorme, Capt L Thuckelson, E Waters and wife, W Smith, G P Mute, H C Kettler, L Flagman.

CHINESE HABEAS CORPUS CASE.—The respondent to the writ of habeas corpus, in the Chinese case, Lee You, appeared before Judge Deady yesterday and made his return to the writ. The petitioner, Han Que, thereupon asked for time to plead to the return, and the hearing was postponed till this morning. The respondent pleads in the first place, that he has not restrained and does not restrain the woman; and in the second place that she is his wife. Considering the fact that a Chinese wife is, at least, no more than a slave, subject legally to the restraint of her husband, this pleading strikes us as very much of a piece with the plea of the "old lady we have heard of" to the charge of borrowing a kettle and returning it broken. She said, firstly, the kettle was sound when she returned it; secondly, it was cracked when she borrowed it; and thirdly, and lastly, she never had the pesky kettle.

LECTURE ON THE EARLY DAYS OF OREGON.—Rev. H. H. Spaulding, one of the pioneer settlers of the Pacific coast, has written a letter to a friend in this city, announcing that he will be here next Monday, and that he desires on that evening to "defend the early pioneers of Oregon, especially the Presbyterian missionaries, in their successful, honorable, self denying, bloody efforts to save the Pacific coast to the people of the United States, the Democratic Senate of Oregon and the present House of Representatives, U. S." "I will give a brief account, he says, "of the [illegible] success of our mission to Washington; in the Senate of the U. S. last winter, the important action of the General Assembly of the Presbyterian Church at Chicago last May." Arrangements will be made by parties here to provide a hall for Mr. Spaulding. The address will be free.

PACIFIC RAILROAD GAZETTEER.—Mr. F. W. Byrod is in this city canvassing for the "Gazetteer and Directory of the Central Pacific Railroad and its branches," a book of 600 pages, to be used as a guide for travelers and immigrants. It will be at once a guide and a business directory, containing a general review of the towns along the line of the Central Pacific Railroad from San Francisco to Ogden; Oregon division from Sacramento to State line; Oregon and California Railroad from State line to Portland; San Jose branch and Visalia division; also, Sacramento Valley Railroad, and Utah Central Railroad from Ogden to Salt Lake City. The book complete in one volume will be ready for delivery in about six weeks.

INTERNATIONAL MONEY ORDERS.—After this date parties desiring to send money to any portion of the British Kingdom can procure, international bills of exchange from the Postmaster of Portland. The following are the rates of commission in United States currency to be charged: On orders not exceeding $10, twenty-five cents; over $10 and not exceeding $20, fifty cents; over $20 and not exceeding $30, seventy-five cents; over $30 and not exceeding $40, $1; over $40 and not exceeding $50, $1 25. No fractions of cents to be introduced in an order. United States Treasury notes or National Bank notes only received or paid.

NEW BOOKS AT THE LIBRARY.—A new work on the late European war, entitled "A History of the War between Germany and France," with biographical sketches of the principal personages engaged in the contest. To which is added a complete account of the revolt of the Commune, and the second siege of Paris, by James D. McCabe, illustrated with maps and engravings; also, a new scientific work called "Polar and Tropical Worlds," a description of Man and Nature in the Polar and Equatorial regions of the globe, by Dr. G. Hartwig, with illustrations, have been placed in the Portland Library.

THE GOLDEN CITY.—This San Francisco literary newspaper has recently passed into the hands of Gus DeYoung & Co., and it now appears like a thing redeemed from the dead and entered upon the roll of the living and lively. It is sprightly and readable in every column of every page. Mr. McCormick who favored us with the copy we have just seen, will take orders for it. As a literary journal, it is, in our estimation, greatly superior to the *Golden Era*.

ACCIDENT.—A little girl, daughter of Mr. A. M. Snyder, fell yesterday into a hole in the middle of the sidewalk on Fifth street, between Main and Madison, and received severe injuries. The hole was formerly made by the Water Co. for a tap and has never been filled since they removed their pipes. There are several other holes of the same sort in various places, into which persons might step in the night. They ought to be stopped at once.

GOOD TEMPLARS' ENTERTAINMENT.—The ladies of Nonpareil Lodge of Good Templars will give an oyster supper and an entertainment, to-morrow evening at their hall, corner of Madison and Third streets. The friends of temperance can spend a pleasant evening there, and at the same time aid a worthy Lodge.

NOT QUITE SO FAST.—Our informant in regard to the crossing of the Harrisburg bridge by the locomotive on Sunday was slightly mistaken. A temporary track was laid across the bridge and a small car with iron was run across by hand, but the locomotive has not yet crossed. This event is expected to occur to-day.

PASSENGERS OVERLAND FOR OREGON.—Passed Ogden, yesterday, bound for Portland, Mrs. S. M. Hicks. Passed Yreka, yesterday, by Oregon and California stage, bound for Portland: T. V. Pliss, S. Kohn, T. V. Barnum, Mr. Barrett, H. Messer, A. H. Webb, Mr. Johnson & wife, and Mrs. Wisston.

TOUR OF INSPECTION.—Mr. James Lotan, Inspector of boilers, and Capt. Geo. H. Flanders, Inspector of hulls for the District of Oregon, started yesterday afternoon, upon an inspecting tour to Umpqua river, Coquille river and Coos Bay. They will be absent, probably, a little over two weeks.

A COLORED SCHOOL MEETING.—A meeting of colored citizens was held last evening at the A. M. E. Zion church to consider the condition of the colored school.

Samuels is canvassing the city for the purpose of getting up a classified directory of the business houses, which he purposes to publish in a neatly bound book, and put a copy in each room of 26 hotels in Oregon, and 11 hotels in Washington Territory. He appears to be well recommended by the newspapers of California.

An Unprotected System.

Do not fancy because you feel strong that you are impregnable to sickness. Whole neighborhoods are frequently prostrated at this season by malarious fevers. Vigorous muscles and strong sinews, broad shoulders and sound lungs, are no defence against the mephitic vapors of autumn. Frames which have withstood the summer heat may succumb now. Many an athletic man, whose family depends for its support on his industry, now lies prostrate, weak and helpless as a babe, under the periodical assaults of chills and fever, or bilious remittent fever. This could not be if all were wise enough to provide against such a contingency, by toning and fortifying the system with Hostetter's Stomach Bitters. This approved vegetable tonic is absolutely harmless, so that it is sheer folly not to take it as a safeguard at a season when diseases of the liver, the stomach, the bowels, and indeed all the visceral organs are generally prevalent. To keep the system in order and insure health, or to put it in order when this precaution has been neglected, is the duty of every human being who values life. For both these purposes Hostetter's Bitters is designated, and it answers both. Petty local dealers are endeavoring, in many parts of the country, to substitute preparations made of impure and dangerous materials in its stead. Give them a wide berth. They are prepared by unskillful experimenters, who want to turn a penny at the expense of the public health.

FINANCE AND COMMERCE.

Monday Evening, Oct. 2, 1871.

Gold in New York, 114¾.

Currency, here buying, 87c; selling, 85.

To-day the regular monthly collections were made. We hear of very general complaint, owing to the extreme scarcity of coin. The *Montana* brought only $60,000. The *Ajax* due—with favorable winds—Wednesday night, it is thought will have very large sums on board for our banks.

Telegraphic advices are that Secretary Boutwell will sell $2,000,000 gold every Thursday, and every Wednesday redeem $2,000,000 of 5-20 bonds of 1862.

The steamer *Montana* arrived last night with full cargo of assorted merchandise from San Francisco.

The steamer *Ajax* is advertised to leave here for San Francisco Oct. 7th, at 7 P. M.

The brig *Orient* will clear from here on Thursday next for San Francisco, with cargo of produce.

The steamer *George S. Wright* will leave here October 7th for Sitka and intermediate ports.

The steamer *Gussie Telfair* leaves here for Sound ports to-morrow (Tuesday) at 7 P. M.

The *Skiddaw* was to have sailed from Astoria to-day for Cork for orders. Her cargo consists of 13,439 centals of Wheat.

The *Dorothy* was towed to Rainier to-day by the *Josie McNear* where she will receive balance of cargo.

Since our last mail advices of arrivals at San Francisco there have been seven more—four from European ports and two from domestic ports.

Late mail advices give tonnage in San Francisco of 35,000 tons of disengaged tonnage in that market. Our exchanges state: "There is no demand for vessels for Grain, and we doubt whether £2 or even £1 15s would be offered. Some charters were being effected for Lumber, Dyewoods and Guano, but at low rates.

The Cutter Whisky suit in San Francisco is attracting very general attention, as some of the points upon which the suit will necessarily touch are of great interest to the trade. One of the points at issue will decide what constitutes a "trade mark."

Great complaint exists among merchants at not being able to receive their goods as fast as desired. They should bear in mind that this year's trade of Portland is nearly twice as great as at any time in our commercial history, and that the North Pacific Transportation Company has come nobly to our relief by placing upon our route another steamer, so as to help to meet the increased trade. The N. P. T. Co. have other routes to protect and were, as all our merchants were, unprepared for such an increase. The barks *Rival* and *Helen W. Almy* with full cargoes of assorted merchandise are due, and the bark *Whistler*, with cargo assorted merchandise sailed from San Francisco September 30th. The *Almatia* will soon follow with a cargo of assorted merchandise.

Since writing the above we have been shown a private letter from a leading firm in San Francisco to a leading Front street firm in this city, stating: Although the *Montana* refused to receive freight before Tuesday, (Sept. 26th), the line of drays, loaded with goods for your city, on Saturday, Sept. 23d, was fully one-quarter of a mile long. The dray charges in line in San Francisco are $1 per hour for all hours under a day, and forty every day in line $7 per day. So that many of our merchants were taxed very high for drayage, one firm paying for one load $28 00.

The steamer *Montana* leaves here for San Francisco on Wednesday evening. She carries no passengers, only taking freight.

The steamer *John L. Stephens* leaves San Francisco for this city with passengers and freight Saturday, Oct. 7th.

The *Gussie Telfair* left Victoria this morning and due here to-morrow (Tuesday) night.

The *Ajax* has on 615 tons assorted merchandise.

The shipment of Grain from Atlantic seaports continues in unabated activity. The scarcity of tonnage retards to a great extent shipments being made as largely as buyers in the New York market desire. The market by last full advices from New York represented Wheat as buoyant; the orders from Europe were large, especially those from the Continent, many of them without limit, and hence there exists in New York a lively competition among buyers, with only a moderate offering on the part of sellers. Prices, under this state of affairs, had improved. Nearly all transactions were for future delivery which aggregated very largely, being in excess of any previous year, and all purchases were made for export. The strong public and private advices from Europe the advance in gold, and the falling off in receipts at lake ports, as compared with last month (August) have been the chief cause of the activity and rapid advance. Much of the falling off in the farmers' deliveries in the Western States for the month of September is owing to their being busily engaged in getting in the Fall seed, and also to the fact that the yield upon thrashing is not so large as expected. With only one crop in the hands of farmers—as prime Old Wheat has been nearly all disposed of—they are rather reluctant in parting with the New Wheat and are holding back. Not only do our exchanges say that the yield is less but the average weight is for Winter 1 lb and Spring 1½ lbs to the bushel below that of last year. The failure of the crop south of Richmond and the Ohio river is being, so reported, seriously felt in that neighborhood. Our New York exchanges in remarking upon the receipts from the 'Lake' ports, say they are lighter than last year, but they neglect to give the direct shipments to Europe this year (which we are under the impression are the first direct shipments from Lake ports) by way of Canada, but only say that those shipments take the trade by surprise and equal nearly one-half of the receipts. At the close of our New York advices Wheat in that market was quoted easier, and prices unsettled with a limited demand. We present a table of the exports of Wheat from the three large Atlantic supply ports of that article, and a table of exports of Corn from five of the largest Atlantic supply ports from Sept. 1st to dates opposite each port, and also a comparison of the aggregate with like periods of 1869 and 1870:

EXPORTS FROM SEPT. 1, 1871, TO DATE.

Wheat.		To Gt. Britain and Ireland. Bush.	Other Foreign ports. Bush.	Totals Bush.
New York	Sept. 15	909,676	355,825	1,250,511
Baltimore	Sept. 0	200,044		200,044
Philadelphia	Sept. 0	110,165		110,163
Totals		1,210,386	365,835	1,575,720
1870		[illegible]	181,158	840,085
1869		1,716,495	113,343	1,830,838
Corn.				
New York	Sept. 15	270,499	123,424	384,023
Baltimore	Sept. 12	61,045	532	61,477
Philadelphia	Sept. 0	218,051	400	218,481
Boston	Sept. 14	41,000	50	41,050
New Orleans	Sept. 9	40,469	2,250	42,719
Totals		631,064	126,080	757,680
1870		3,438	8,310	11,748
1869		[illegible]	5,312	[illegible],842

It will be seen that the increase of Wheat over that of the biggest export year was 44,882 bushels and in Corn 747,032 bushels. This does not include shipments from lake ports via Canada neither does it include the Canada Wheat exported, which in the fore part of the season was reported as likely to be of no inconsiderable amount.

Merchandise Report.

WHEAT—The market was quite excited in the morning, but toward noon was more quiet, as private telegrams received gave market in San Francisco lower, and refusing to purchase some lots offered in this market to agents here. The scarcity of coin to effect transactions and causes the quotations to be merely nominal, as there is no coin with which to make purchases. Buyers were offering more this morning than our last quotations, but we heard of no purchase effected. This afternoon they are a little off. After to-morrow (Tuesday) we will probably have more definite advices from Liverpool, and on receipt prices will be more settled, and then our quotations will be more reliable for future transactions. The *Montana* only brought up $60,000 in coin. The *Ajax* it is thought will have on from $200,000 to $300,000 which will after reception allow purchasers to resume buying.

FLOUR—Millers and agents have advanced prices 50 cents ₩ bbl all round. Tung Dock Chung & Co secured, previous to the advance, about 600 bbls for the *Garibaldi*, loading for China. We quote market for extra, $7 50 ₩ bbl; $6 75@7 25 for superfine.

RAISINS—Latest mail advices from Malaga report an advance of 20c on the opening price for Raisins. The crop is said to be short, especially fine fruit. Invoices of new Raisins have been received at both London and New York. In the latter market Raisins were firm at $3.

SPICES—Cable advices from China report a further advance of $1 in Cassia, the price of which was rated at $21 ₩ picul. The loss of a vessel bound for New York having on 3 000 piculs of the new crop, gave more tone to the market there. Quotable at last advices in New York at 30c.

HEMP—Prices have again stiffened in New York, owing to receipt of advices by cable giving an advance of $10 ₩ picul at Manila. This advance has made prices of cordage.

TURPENTINE—Mail advices from San Francisco state that 80c for an invoice [illegible] was refused there. Under a speculative demand in New York prices have again advanced. Quotable there at 60c. Quotable in our market at 0[illegible]@$1 ₩ gallon.

TO THE UNFORTUNATE.

NEW REMEDIES, NEW REMEDIES

Dr. Gibbon's Dispensary,

623 KEARNEY STREET, NEAR COMMERCIAL, San Francisco. Established in 1854, for the treatment of Sexual and Seminal Diseases, such as Gonorrhea, Gleet, Stricture, Syphilis in all its forms, Seminal Weakness, Impotency, etc. Skin Diseases (of years standing) and Ulcerated Legs successfully treated.

DR. GIBBON has the pleasure of announcing that he has returned from visiting the principal Hospitals of Europe, and has resumed practice at his Dispensary, 623 Kearny street, corner of Commercial, San Francisco, where his old patients and those requiring his services may find him.

The Doctor has spared neither time nor money in seeking out new remedies, and has returned with increased facilities for the alleviation of human suffering.

Horrible Diseases.

How many thousands of persons, both male and female, are there who are suffering out a miserable existence from the effects of secret indulgence, or from virus absorbed into the system! Look at their emaciated and disfigured faces and their broken down constitutions, disqualifying them for the happiness of marriage or the enjoyment of life. In this horrid situation thousands suffer until death closes the scene. Let parents, guardians, friends, attend to those who are suffering with any of these horrible life-destroying maladies, and see that they are cared for and cured before it be too late. Send them immediately to Doctor Gibbon, a physician who has made private disease his especial study for years, and who is certain to cure the most inveterate cases without mercury or any injurious drugs. It is important to those who are afflicted, or to those who are interested in the welfare of their friends, to be careful of the many pretended doctors who infest all cities, publishing their skill in curing all diseases in a few days, imposing upon the public by using the names of eminent physicians from Europe and other places. Be therefore careful and make strict inquiry, or you may fall into the hands of these charlatans.

Seminal Weakness.

Seminal Emissions, the consequence of self-abuse, a solitary vice, or depraved sexual indulgence, is practiced by the youth of both sexes to an almost unlimited extent, producing, with unerring certainty, the following train of morbid symptoms, unless combatted by scientific medical measures, viz: Sallow countenance, dark spots under the eyes, pain in the head, ringing in the ears, noise like the rustling of leaves and rattling of chariots, uneasiness about the loins, weakness of the limbs, confused vision, blunted intellect, loss of confidence, diffidence in approaching strangers, a dislike to form new acquaintances, a disposition to shun society, loss of memory, hectic flushes, pimples and various eruptions about the face, furred tongue, fetid breath, coughs, consumption, night sweats, monomania and frequent insanity. If relief be not obtained, should apply immediately, either in person or by letter, and have a cure effected by his new and scientific mode of treating this disease, which never fails of effecting a quick and radical cure. Dr. G. will give One Hundred Dollars to any person who will prove satisfactorily to him that he was cured of his complaint by any of the San Francisco quacks.

MARRIED MEN,

Or those who contemplate marriage, who are laboring under any of those fearful maladies, should not forget the sacred responsibility resting upon them nor delay to obtain immediate relief.

DOCTOR GIBBON is responsible, and will give to each patient a written instrument, binding himself to effect a radical and permanent cure, or make no charge.

CURED AT HOME.

Persons at a distance may be CURED AT HOME by addressing a letter to Dr. Gibbon, stating case, symptoms, length of time the disease has continued, and have medicines promptly forwarded, free from damage and curiosity, to any part of the country, with full and plain directions. By inclosing Ten Dollars coin, in registered letter through the Postoffice or through Wells, Fargo & Co., a package of medicine will be forwarded to any part of the Union.

All communications strictly confidential.

Caution to the Unfortunate.

Beware of the San Francisco quacks and pretenders, who, with bogus sworn-to certificates, dupe the unwary. Some of the self-styled doctors, whose names are to be found in the daily and weekly newspapers of San Francisco and other places, are tradesmen and became too lazy too work at their trades. Some are tinsmiths, shoemakers, newspaper carriers, intelligence office keepers, etc. Look over the San Francisco Directory and you will not find their Medical Institutes in it, but you will find their former occupations in it. Look at the Directory for 1862 and 1863. The only way to avoid imposition is to make inquiry—it will cost you nothing, and may save you many regrets; for, as advertising physicians in nine cases out of ten are bogus, there is no safety in trusting any of them until you know who and what they are. Dr. Gibbon does not deceive people by exhibiting false titles, certificates, pretended patients' letters, etc. Dr. Gibbon will satisfy persons who may call at his office of his ability to treat diseases that he proposes to cure.

Address DR. J. F. GIBBON, 623 Kearny st., corner Commercial, San Francisco. Post Office Box 1,957.

FINANCE AND COMMERCE.

TUESDAY EVENING, Oct. 3d, 1871.

Gold in New York, 114¾.

Currency, here, buying, 87c; selling, 88.

Our Gold quotations yesterday should have been 114¾.

The steamer *Gussie Telfair* arrived this morning. She will commence receiving freight for Sound ports to-morrow (Wednesday).

The steamer *Ajax* is due here to-morrow night.

The Central Pacific Railroad Company, in conjunction with the other roads, did not advance the tariff on Teas to New York, but raised it slightly to Chicago, Cincinnati and St. Louis. This but shows what this grasping, crushing monopoly does when it has the power. It is afraid of competition by the Suez Canal to advance rates to New York on Teas and Silks, but those cities where no competition is felt it causes to "bleed." We were shown a letter in which the writer states that on a car load (10 tons) of freight, bound to San Francisco from the East, the price was advanced $50, or aggregating $450 freight for each car. Shippers think that this is but the beginning of further advances. From the compromise effected with the Pacific Mail Steamship Company tariffs will probably be higher and remain up until the North Pacific Railroad is completed. Under this state of things country merchants must be prepared for advances in some articles of merchandise at any time, with further advances as freight tariffs from the East are raised. By telegraph we learn that the shipments of Teas from San Francisco East for the month of September aggregated 2,955,360 lbs, and that of Coffee 471,466 lbs, the duties upon nearly all of which were collected at destination. We can safely calculate on a large majority of the Tea for the East being shipped via Portland upon completion of the North Pacific Railroad, as the master spirit who is directing so much energy and with such success to center trade, in this spirit will not fail to turn the Tea and Rice traffic this way, well knowing that by so doing he adds [illegible] large wealth in enhancing the prices of his land.

The want of a supply of available funds in our midst naturally [illegible] our most enterprising and leading business men to try and adopt measures by which we can at all times find relief. In furtherance of this object the most favorable project suggested is a Savings and Loan Bank, incorporated and worked upon the same principle, so successfully carried out by those in San Francisco. There has been a belief among our merchants that all such incorporations are prohibited by our laws. For the benefit of all we called this morning upon a legal gentleman, whose decisions on the bench have gained for him a reputation among lawyers throughout the United States [illegible], and he says there exists a diversity of opinion on the subject, but as for himself he does not see as there is any impediment to a company being incorporated and worked under the laws of this State, the only thing the constitution forbids being the issuance of bank notes. This opinion coincides with one expressed to us some time ago, by another lawyer of distinction in this city. The formation of a Savings and Loan Bank in this city would be of immeasurable benefit to us. Our true policy is to [illegible] our resources and retain within our midst all the money possible. A Savings Bank here would drain a large scope of country, a country, too, the largest majority of whose citizens are of the laboring class, which constitute the class that build up savings banks. Take a large part of Idaho and nearly, if not all of Oregon and Washington Territory, and it will give us, at the least calculation, not less than 75,000 persons who could and would deposit on an average, say $100 each. This, we hardly think is too high, as Oregon and Washington Territory have a very large percentage of their citizens engaged in farming or lumber mills or engaged in some capacity in connection with [illegible]. Their capital is their labor, requiring no outlay of money but requiring the storing away of money for a season of sickness or old age. A very large majority of these persons would become regular depositors if satisfied that the officers are all men of integrity and business energy, men who will guard the interests of depositors with the same watchful care as they do that of their own business. We are personally cognizant of citizens [illegible] now of Oregon—who [illegible] their money in the Savings Banks of San Francisco, because there they [illegible] benefits of its worth without having its care on their hands, whereas if loaned out here (there being no institution here allowing them full rates of interest [illegible] working) by themselves there is [illegible] and trouble attached to it. We will have further to say on this subject.

The following is the amount of duties on imports, hospital and tonnage moneys collected at the principal ports of the United States for the fiscal year ending June 30, 1871:

	Duties.	Hospital Money.	Tonnage Money.
New York	$141,121,673 07	$51,603 70	$342,236 10

At the time the above returns were made, that from this port (Willamette) only covered nine months, as previously this district was embraced in that of Astoria.

The amount of duties collected at this port for the first year ending Oct. 1st, 1871, amounts to $250,282 52, which places our port the 22d in the list. For the next fiscal year our return will place us at least ahead of three additional ports.

Merchandise Report.

WHEAT—We can learn of no private dispatches being received to-day as indicating the future of the market at this writing and public dispatches have not been received. Buyers are still offering more but for the want of coin transactions are few and such as are made we hardly think would indicate the market. We quote market for shipping lots, $2 [illegible] 35 ℔ cental, sacked; fair to choice without sacks, 1[illegible] less. For a straight lot of prime higher prices can be obtained.

FLOUR—Of the *Garibaldi's* cargo 3,750 bbls have been secured and the balance is being negotiated for. We quote market for extra $7 50 ℔ bbl; superfine, $6 25@7 25 ℔ bbl.

BARLEY—Is in light demand at previous quotations, $2 10@2 15 ℔ cental.

OATS—Are firm and in demand at $1 95@2 07½ ℔ cental.

HOPS—A New York exchange says: "For the past few days there has been a more active market; buyers are [illegible] to realize the condition of the crop, and show more disposition to invest. New Hops, however, are arriving very sparingly, and in view of the above [illegible] prices in some instances have advanced from 2@3c. We quote: State growth 1871, 40@52½c; Eastern, do, 40@50c; Western, do, 40@50c; yearlings, 17@27c; olds, 10@15c; California growth 1870, 18@28c; do growth 1869, 11@[illegible]."

COPPER—Late Eastern advices give market as active with higher prices ruling.

RICE—Patna, by late mail advices, was doing better at home with a further advance expected. In consequence prices were higher East.

PETROLEUM—Owing to more freight offerings East prices were advancing there under a healthier demand. The bidding for future delivery were higher with holders not anxious to sell.

TOBACCO—In Kentucky market very active and strong. In New York previous improvement well sustained with light inquiry and holders not disposed to sell.

WOOL—Our latest New York exchange says: "There has been but a very small business transacted since our last, although there has been more inquiry noticeable. The stock of Wool, especially the finer grades, continues light, and with the confident feeling of sellers and the firm tone of the market generally prices will hardly recede for finer grades."

TO THE UNFORTUNATE.

NEW REMEDIES, NEW REMEDIES!

Dr. Gibbon's Dispensary,

623 KEARNEY STREET, NEAR COMMERCIAL, San Francisco. Established in 1854, for the treatment of Sexual and Seminal Diseases, such as Gonorrhea, Gleet, Stricture, Syphilis in all its forms, Seminal Weakness, Impotency, etc. Skin Diseases (of years standing) and Ulcerated Legs successfully treated.

DR. GIBBON has the pleasure of announcing that he has returned from visiting the principal Hospitals of Europe, and has resumed practice at his Dispensary, 623 Kearny street, corner of Commercial, San Francisco, where his old patients and those requiring his services may find him.

The Doctor has spared neither time nor money in seeking out new remedies, and has returned with increased facilities for the alleviation of human suffering.

Horrible Disease.

How many thousands of persons, both male and female, are there who are suffering out a miserable existence from the effects of secret indulgences, or from virus absorbed into the system! Look at their pallid, wasted and disfigured [illegible] and their broken-down constitutions, disqualifying them for the happiness of marriage or the enjoyment of life. In this horrible situation thousands suffer until death closes the scene. Let parents, guardians, friends, attend to those who are suffering any of these horrible effects of [illegible] they are cared for and cured before it be too late. [illegible] them immediately to Doctor Gibbon, a physician who has made private diseases his special study for years, and who is certain to cure the worst cases [illegible] mercury or any injurious drugs. It is important to those who are afflicted, or to those who are interested in the welfare of their friends, to be careful of the many pretended doctors who infest all cities, publishing their ads [illegible] curing all diseases in a few days, imposing upon the public by using the names of eminent physicians from Europe and other places. Be therefore careful and strictly inquire, or you may fall into the hands of charlatans.

Seminal Weakness.

Seminal Weakness, the consequence of self-abuse, this solitary vice, or depraved sexual indulgence, is practiced by the youth of both sexes to an almost unlimited extent, producing, with unerring certainty, the following train of morbid symptoms, unless combated by scientific medical measures, viz: Sallow countenance, dark spots under the eyes, pain in the head, ringing in the ears, noise like the rustling of leaves and rattling of chariots, uneasiness about the loins, weakness of the limbs, confused vision, blunted intellect, loss of confidence, diffidence in approaching strangers, a dislike to form acquaintances, a disposition to shun society, loss of memory, hectic flushes, pimples and various eruptions about the face, furred tongue, fetid breath, coughs, consumption, night sweats, monomania and frequently insanity. If relief be not obtained, should apply immediately, either in person or by letter, and have a cure effected by his new and all-entire mode of treating this disease, which never fails effecting a quick and radical cure. Dr. G. will give One Hundred Dollars to any person who will prove satisfactorily to him that he was cured [illegible] of the San Francisco quacks.

MARRIED MEN.

Or those who contemplate marriage, who are under any of these fearful maladies, should not, for the sacred responsibility resting upon them nor delay to obtain immediate relief.

DOCTOR GIBBON is responsible, and will give to his patients a written instrument, binding him to effect a sure radical and permanent cure, or make no charge.

CURED AT HOME.

Persons at a distance may be CURED AT HOME, by addressing a letter to Dr. Gibbon, stating case, symptoms, length of time the disease has continued, and have medicines promptly forwarded, free from damage and curiosity, to any part of the country, with full and plain directions. By inclosing Ten Dollars coin [illegible] in a letter through the Postoffice or through Wells, Fargo & Co., a package of medicine will be forwarded to any part of the Union.

All communications strictly confidential.

Caution to the Unfortunate.

Beware of the San Francisco quacks and pretenders, who, with bogus sworn-to certificates, dupe the unwary. Some of these advertised doctors, whose names are to be found in the daily and weekly newspapers of San Francisco and other places, are tradesmen, and have no more knowledge of medicine than tinkers, shoemakers, newspaper carriers, intelligence office [illegible] etc. Look over the San Francisco Directory, and you will not find their Medical Institutes in it, but you will find their former occupations in it. Look at the Directory for 1862 and 1863. The only way to avoid imposition is to make inquiry—it will cost you nothing, and may save you many regrets; for, as advertising physicians, in nine cases out of ten are bogus, there is no safety in trusting any of them until you know who and what they are. Dr. Gibbon does not deceive people by exhibiting bogus titles, certificates, protected patients' letters, etc. Dr. Gibbon will at [illegible] persons who may call at his office of his ability to treat disease that he proposes to cure.

Address DR. J. F. GIBBON, 623 Kearny street, near Commercial, San Francisco. Post Office Box 1,957. REMEMBER TO PUT BOX 1,957 ON THE L[illegible].

Consultations FREE.

☞ Correspondents will please inform DR. GIBBON that they read his advertisement in the *Daily Oregonian*. jy6d4m

Hence the physicians of the tropics give it their emphatic sanction, prescribing it in preference to every other aperient in use. The patient, of course, gladly accepts it, for his palate is one of the most delightful, as well as mild and cooling cathartics, laxatives, [illegible] sesses every medicinal virtue of the far-famed Seltzer Spa. MARSHAL'S CITATION.—UNITED STATES of America, District of Oregon—ss. Whereas, a libel hath been filed in the District Court of United States of America, for the District of Oregon, on the 20th day of September, in the year of our Lord one thousand, eight hundred and seventy-one, by E. R. Shattuck, Esq., Proctor, in behalf of J. O. Mander, against the Brig "*Orient*," her tackle, apparel and furniture, and praying that the usual process and monition of the Court, that all persons interested in said vessel, her tackle, apparel and furniture, may be cited to appear the premises, and all due proceedings being had, that the same may be decreed to be sold, and the proceeds thereof to be distributed according to law—Therefore, in pursuance of the said monition, under the seal of the said Court, to me directed and delivered, I do hereby give notice generally, unto all persons having or pretending to have any right, title or interest therein, and to Nickels, master of the said Brig "*Orient*" in special, to appear before the said Court, at the city of Portland, Oregon, on the 6th day of November, 1871, if it be a court day, or else on the next court day thereafter, at 10 o'clock in the forenoon, then and there to interpose a claim for the same, and to make their allegations in that behalf.

FINANCE AND COMMERCE.

TUESDAY EVENING, Oct. 3d, 1871.

Gold in New York, 114¾.

Currency, here, buying, 87c; selling, 88.

Our Gold quotations yesterday should have been 114¾.

The steamer *Gussie Telfair* arrived this morning. She will commence receiving freight for Sound ports to-morrow (Wednesday).

The steamer *Ajax* is due here to-morrow night.

The Central Pacific Railroad Company, in conjunction with the other roads, did not advance the tariff on Teas to New York, but raised it slightly to Chicago, Cincinnati and St. Louis. This but shows what this grasping, crushing monopoly does when it has the power. It is afraid of competition by the [illegible] to advance rates to New York on Teas and Silks, but those cities where no competition is felt it causes to "bleed." We were shown a letter in which the writer states that on a car load (10 tons) of freight, bound to San Francisco from the East, the price was advanced $50, or aggregating $450 freight for each car. Shippers think that this is but the beginning of further advances. From the compromise effected with the Pacific Mail Steamship Company tariffs will probably be higher and remain up until the North Pacific Railroad is completed. Under this state of things country merchants must be prepared for advances in some articles of merchandise at any time, with further advances as freight tariffs from the East are raised. By telegraph we learn that the shipments of Teas from San Francisco East for the month of September aggregated 3,95[illegible],300 lbs, and that of Coffee 471,469 lbs, the duties upon [illegible] all of which were collected at destination. We can safely calculate on a large majority of the Tea for the East being shipped via Portland upon completion of the North Pacific Railroad, as the master spirit who is directing so much energy and with such success to center trade in this spirit will not fail to turn the Tea and Rice traffic this way, well knowing that by so doing he adds [illegible] already large [illegible] in enhancing the prices of his land[illegible].

The want of a supply of available funds in our midst naturally [illegible] our most enterprising and leading business men to try and adopt measures by which we can at all times find relief. In furtherance of this object the most favorable project suggested is a Savings and Loan Bank, incorporated and worked upon the same principle as successfully carried out by those in San Francisco. There has been a belief among our merchants that all such [illegible] are prohibited by our laws. For the benefit of all we called this morning upon a legal gentleman, whose decisions on the bench have gained for him a reputation among lawyers throughout the United States [illegible], and he says there exists a diversity of opinion on the subject, but as for himself he does not see as there is any impediment to a company being incorporated and worked under the laws of this State, the only thing the constitution forbids being the issuance of bank notes. This opinion coincides with one expressed to us some time ago by another lawyer of distinction in this city. The formation of a Savings and Loan Bank in this city would be of [illegible] to us. Our true policy is to [illegible] our resources and retain within our midst all the money possible. A Savings Bank here would drain a large scope of country—a country, too, the largest majority of whose citizens are of the laboring class, which constitute the class that build up savings banks. Take a large part of Idaho and nearly, if not all of Oregon and Washington Territory, and it will give us, at the least calculation, not less than 75,000 persons who could and would deposit on an average, say $[illegible] each. This, we hardly think [illegible] Oregon and Washington Territory has a [illegible] percentage of their citizens engaged in their or [illegible] engaged in some capacity in connection with them. Their capital is their labor, requiring no outlay of money but requiring the laying away of money for a season of sickness or old age. A very large majority of those persons would become regular depositors if [illegible] that the officers are all men of integrity and business energy—men who will guard the interests of depositors with the same watchful care as they do that of their own [illegible]. We are personally cognizant of [illegible] of Oregon—who [illegible] their money to the Savings Banks of San Francisco, because there they [illegible] the benefits of its [illegible] without having its care on their hands; whereas if [illegible] (there being no institution here allowing them full rates of interest [illegible]) by themselves there is too much anxiety and trouble attached to it. We will have further to say on this subject.

The following is the amount of duties on imports, hospital and tonnage moneys collected at the principal ports of the United States for the fiscal year ending June 30, 1871:

	[illegible] Duties.	Hospital Money.	Tonnage Money.
New York	$141,121,573 07	$51,003 70	$342,235 10
Boston	20,639,015 27	13,733 33	82,164 89
Baltimore	8,945,980 09	17,101 65	39,885 70
Philadelphia	7,165,357 74	19,300 65	49,395 10

Texas	[illegible]	[illegible]	[illegible]
[illegible]	[illegible]	[illegible]	[illegible]

Wilmington, N. C.	120,[illegible]	[illegible]	[illegible]
Willamette	142,[illegible]	[illegible]	[illegible] 37

At the time the above returns [illegible] from this port (Willamette) only [illegible] months, as previously this [illegible] was [illegible] Astoria. The amount of duties collected at this port for the first year ending Oct. 1st, 1871, amounts to $270,282 89, which places our port the [illegible] in the list. For the next fiscal year our return will place us [illegible] ahead of three additional ports.

Merchandise Report.

WHEAT.—We can learn of no private dispatches being received to-day as indicating the future of the market at this writing and public dispatches have not been received. Buyers are still offering more but for the want of coin transactions are few and such as are made we hardly think would indicate the market. We quote market for [illegible] lots, $[illegible] ℘ cental, marked; fair to choice [illegible]. For a straight lot of prime higher prices [illegible].

FLOUR.—Of the [illegible] cargo 3,750 bbls have been secured and the balance is being negotiated for. We quote market for extra $[illegible] ℘ bbl; superfine, $6 25@7 2[illegible] ℘ bbl.

BARLEY.—Is in light demand at previous quotations, $2 10@2 15 ℘ cental.

OATS.—Are firm and in demand at $1 95@2 07½ ℘ cental.

HOPS.—A New York exchange says: "For the past few days there has been a more active market; buyors are [illegible] to realize the condition of the crop and show more disposition to invest. New Hops, however, are arriving very sparingly, and in view of the above [illegible] prices in some instances have advanced from 2@3c. We quote: State [illegible]@52½c; Eastern, do, 40@50c; Western [illegible] yearlings, 17@27c; olds, 10@15c; California [illegible]; do growth 1869, [illegible]."

COPPER.—Late Eastern advices give market as active with higher prices.

RICE.—Patna, by late mail advices, was doing better at home with a further advance expected. In consequence prices were higher East.

PETROLEUM.—Owing to more freight offerings East prices were advancing there, under a healthier demand. The bidding for future [illegible] were higher with holders not anxious to sell.

TOBACCO.—In Kentucky market very active and higher in New York previous improvement well sustained, with light inquiry and holders not disposed to sell.

WOOL.—One latest New York exchange says: "There has been but a very small business transacted since our last, although there has been more inquiry noticeable. The stock of Wool, especially the finer grades, continues light, and with the confident feeling of sellers and the firm tone of the market generally prices will hardly recede for finer grades."

European and Oregon Land Co.,

PORTLAND, OREGON, August 1, 1871.

THE COMPANY IS NOW PREPARED TO EXTEND the pre-emption privilege of purchasing Railroad Lands in advance of the same being placed in market to all parties desirous of securing them on the following terms:

The applicant filing in this office a claim in the form prescribed, to wit:

SIR.: You are hereby notified that I have settled upon [illegible] proved (description of land) in the county of ——, State of Oregon, containing —— acres, and that I claim a pre-emption right to purchase said lands at the Company's valuation in accordance with the following resolution of the Directors of said Company, adopted on the twenty-sixth day of May, A. D. 1871, to the terms of which I hereby fully assent:

"Resolved, That the parties settling upon and improving any of the lands of the European and Oregon Land Company, before the same are opened for market, shall be entitled to the pre-emption privilege of purchase on the same terms as the Company would sell the land for without improvement, and shall be subject to the same conditions of payment, as all other lands belonging to the Company, when brought into market; provided, such settlers shall file in the Land Office of said Company, written application, giving notice of such settlement, and shall accept the privilege upon the condition that when the price of the land shall be fixed, notice thereof shall be sent by the Company's Land Agent, through the Postoffice, or otherwise, as may be convenient, to the residence of the party claiming the pre-emption privilege, and if the land is not purchased by the said party within sixty days from the date of such notice the Company will be at liberty to sell the land to any other person."

TO THE UNFORTUNATE.

NEW REMEDIES, NEW REMEDIES

Dr. Gibbon's Dispensary,

623 KEARNEY STREET, NEAR COMMERCIAL, San Francisco. Established in 1854, for the treatment of Sexual and Seminal Diseases, such as Gonorrhœa, Gleet, Stricture, Syphilis in all its forms, Seminal Weakness, Impotency, etc. Skin Diseases (of years standing) and Ulcerated Legs successfully treated.

DR. GIBBON has the pleasure of announcing that he has returned from visiting the principal Hospitals of Europe, and has resumed practice at his Dispensary, 623 Kearny street, corner of Commercial, San Francisco, where his old patients and those requiring his services may find him.

The Doctor has spared neither time nor money in seeking out new remedies, and has returned with increased facilities for the alleviation of human suffering.

Horrible Diseases.

How many thousands of persons, both male and female, are there who are suffering out a miserable existence from the effects of secret indulgences, or from virus absorbed into the system! Look at their pallid, emaciated and disfigured faces and their broken-down constitutions, disqualifying them for the happiness of marriage or the enjoyment of life. In this horrid situation thousands suffer until death closes the scene. Let parents, guardians, friends, attend to those who are suffering with any of these horrible life-destroying maladies, so that they are cared for and cured before it be too late. Send them immediately to Doctor Gibbon, a physician who has made private diseases his especial study for years, and who is certain to cure the most inveterate cases without mercury or any injurious drugs. It is important to those who are afflicted, or to those who are interested in the welfare of their friends, to be careful of the many pretended doctors who in foster [illegible], publishing their ability in curing all diseases in a few days, imposing upon the public by using the names of eminent physicians from Europe and other places. Be therefore careful and make strict inquiry, or you may fall into the hands of these charlatans.

Seminal Weakness.

Seminal Emissions the consequence of self-abuse. This solitary vice, or depraved sexual indulgence, is practiced by the youth of both sexes to an almost unlimited extent, producing, with unerring certainty, the following train of morbid symptoms, unless combatted by scientific medical measures, viz: Sallow countenance, dark spots under the eyes, pain in the head, ringing in the ears, noise like the rustling of leaves and rattling of chariots, uneasiness about the loins, weakness of the limbs, confused vision, blunted intellect, loss of confidence, diffidence in approaching strangers, a dislike to form new acquaintances, a disposition to shun society, loss of memory, hectic flushes, pimples and various eruptions about the face, furred tongue, fetid breath, coughs, consumption, night sweats, monomania and frequent insanity. If relief be not obtained, should apply immediately, either in person or by letter, and have a cure effected by his new and scientific mode of treating this disease, which never fails of effecting a quick and radical cure. Dr. G. will give One Hundred Dollars to any person who will prove satisfactorily to him that he was cured of this complaint by any of the San Francisco quacks.

MARRIED MEN,

Or those who contemplate marriage, who are under any of these fearful maladies, should not forget the sacred responsibility resting upon them, and delay to obtain immediate relief.

DOCTOR GIBBON is responsible, and will give to each patient a written instrument, binding himself to effect a radical and permanent cure, or make no charge.

CURED AT HOME.

Persons at a distance may be CURED AT HOME by addressing a letter to Dr. Gibbon, stating case, symptoms, length of time the disease has continued, and have medicines promptly forwarded, free from damage and curiosity, to any part of the country, with full and plain directions. By inclosing Ten Dollars coin, in a registered letter through the Postoffice or through Wells, Fargo & Co., a package of medicine will be forwarded to any part of the Union.

All communications strictly confidential.

Caution to the Unfortunate.

Beware of the San Francisco quacks and pretenders, who, with bogus sworn-to certificates, dupe the unwary. Some of the self-styled doctors, whose names are to be found in the daily and weekly newspapers of San Francisco and other places, are tradesmen and became too lazy to work at their trades. Some are tinsmiths, shoemakers, newspaper carriers, intelligence office keepers, etc. Look over the San Francisco Directory, and you will not find their Medical Institutes in it, but you will find their former occupations in it. Look at the Directory for 1862 and 1863. The only way to avoid imposition is to make inquiry—it will cost you nothing, and may save you many regrets; for, as advertising physicians in eight cases out of ten are bogus, there is no safety in trusting any of them, until you know who and what they are. Dr. Gibbon does not deceive people by exhibiting bogus titles, certificates, pretended patients' letters, etc. Dr. Gibbon will satisfy persons who may call at his office of his ability to treat diseases that he proposes to cure.

Address DR. J. F. GIBBON, 623 Kearney street, corner Commercial, San Francisco. Post Office Box 1,957.

REMEMBER TO PUT BOX 1,957 ON THE LETTER.

Consultations FREE.

☞ Correspondents will please inform DR. GIBBON that they read his advertisement in the *Daily Oregonian*. jy6d4pt

TARRANT'S SELTZER APERIENT

Under a burning sun, where Bilious affections and Fevers of various descriptions so generally prevail, TARRANT'S EFFERVESCENT SELTZER APERIENT Has been successful beyond all parallel. Hence the physicians of the tropics give it their emphatic sanction, prescribing it in preference to every other aperient in use. The patients, of course, gladly acquiesce, for this preparation is one of the most delightful, as well as mild and cooling cathartics, chemistry has yet devised. It possesses every medical virtue of the far-famed German Seltzer Spa. It is a powder, that only requires the addition of water to produce in an instant a delicious effervescent beverage, as well as an invaluable medicine. ASK FOR AND ACCEPT NONE BUT THE GENUINE. WEDNESDAY MORNING, OCT. 4, 1871.

CITY.

FALSE RUMOR AND NEEDLESS ALARM.—There was a brisk little sensational breeze in this city yesterday afternoon over a telegraphic report from the Cascades, to the effect that a child of Phillip Ritz, who was on the way down from Walla Walla, had broken out with small pox, on one of the steamers between here and the Dalles. The reporters, as in duty bound, rushed off to set up a warning howl and to read sanitary lectures to people about cleanliness, caution and vaccination. People rushed around as is usual on such occasions, to tell each other the unpleasant news and to cuss about people in general, who *will* always travel when they don't know whether or not they have got the small pox. Upon the arrival of the boat, however, the sensation got nipped, as it turned out that Mr. Ritz's child had not broken out with the small pox on the steamer, was not sick on the steamer or elsewhere, and, lastly, was not on the steamer at all. In short, Mr. Ritz did not have any of his children with him, nor could anybody be found among the passengers, suspected of having the small pox about him or her. The reporters' items in this behalf, will probably, however, do in a few days, as it may be reasonably expected that somebody will bring the small pox down.

HOUSE CAPTURED BY A CHINAMAN.—One of our south-end citizens had occasion yesterday to call on a policeman to rescue his house from the besiegement of the Chinese cook. Most of the Chinamen employed as house servants have a way of being excellent, tractable and good natured fellows for about a month, after which they fall into fits of being surly, careless, saucy, and sometimes ugly and destructive. This particular Chinaman had got into one of these fits, and during the absence of the master of the house had captured the [illegible], frightened the ladies out of the kitchen, and, when the master returned, was carrying his role with a high hand. He refused to surrender and wouldn't "git," declaring that nobody should take him or drive him out of that kitchen. The [illegible], thinking he could settle the unpleasantness more effectually with the aid of the law than with a rough-and tumble or fisticuff, went for a policeman, who very soon brought the Celestial to [illegible] capitulating terms, and restored the [illegible] to its rightful occupant.

PASSENGERS FOR VICTORIA AND THE SOUND.—The steamship *Prince Alfred* sailed from San Francisco for Victoria, on Monday, with the following list of passengers:

Miss [illegible] and 2 children, George Hunter and family, Mrs Steel and infant, Mrs A S Higgins, Miss [illegible] Baldridge, Mrs Delgardner and daughter, Miss Hayward, Mrs G W Anderson and daughter, Mrs Martin, Miss D Venille, sister and 2 servants, J W Maryott, wife and son, A D Waters and wife, Mrs Blowers, G W Blowers and son, R J Holmes, H L Yesler, J Bruno, Jr, P F Harvey, Col [illegible], Mr Bloomingdale and family, Wm Diggins, M S Booth, Dr G W Lyon, Louis Schwabacher, E L Hastings, J J Hunt, P S Higgins, J Van Aaken and family, Hy Myers, J F Higgins, F H Whitworth, and 35 white and 17 Chinese passengers in the steerage.

HABEAS CORPUS CASE DISPOSED OF.—The matter of the Chinese habeas corpus, Han Que petitioner, Lee You respondent, and You Que the lady, was heard and disposed of yesterday by Judge Deady. A motion was made by the petitioner to discharge [illegible] on the ground of the [illegible] of the return. The motion was not opposed by respondent's counsel, and it was [illegible], and the woman was allowed to go where she pleased. As might have been reasonably expected, the damsel had changed her mind and no longer wanted to leave Lee You and become bone of one bone and flesh of one flesh with Han Que. On the contrary, she signified to the Court her [illegible] of obtaining her regular rations of rice with her original lord and master. Han Que is a jilted and despondent Chinaman.

PASSENGERS FROM THE NORTH.—The propeller *Gussie Telfair*, Ainslee, commander, arrived at half past 5 A. M. yesterday from Sitka and way ports. She brought the following list of passengers:

Gen Tidball, wife and 2 servants, Rev Mr Van Horn, wife and 2 children, Allen Francis, W C [illegible] and wife, John Sunday, L Stimpson, Mrs J Cummings, Miss A Bentley, Miss Kate Sherlock, Mrs Brown, E J Zigler, L McGoodwin, Mrs Jones and 3 children, A W Rising, Miss L Donohoe, Mrs Honey and 4 children, Miss Ellen Flynn, H Lippies, A Lippies, Miss Carrie Watkins, M McClintock, N Baker, Peter Murphy, James Walton, Thos McFarlan, Miss Banks, A Garber, S [illegible], G S [illegible], H Monothock, D Ross.

PERSISTENT MISREPRESENTATION.—The Kalama *Beacon* is [illegible] with "low water." In the last issue it says: "At present, we are informed, that there is only fourteen feet of water in the channel between here and Portland. At the last trip of the *Oriflamme* she had to send her passengers and a share of her cargo to Portland by lighters." As to the *Oriflamme* the statement is entirely false. As to the balance of the item, the facts bear us out in saying that vessels drawing seventeen feet of water arrive and depart without the least trouble in all cases, when the pilots do not choose to run them aground out of the channel. The poor *Beacon*, however, will [illegible], we reckon.

WATER SUPPLY CUT OFF.—We learn that the supply of water at the North Portland school has been entirely cut off for three or four days. The school usually obtains its supply by tapping a small pipe at the lager beer brewery near by, fed from Balch's lake. Since the water has become low the supply has been short for the brewery alone, and hence the school is left high and dry. Not enough can be obtained for even the sprinkling of the school house floors for sweeping purposes and the floors have to go unswept. There is something radically wrong, evidently, in this matter, which the Directors would do well to look after.

RESIGNED.—Colonel A. P. Dennison has resigned the office of Director for School District No. 1, to take effect on the 15th inst. After going through the old accounts made when he was Director before, he has become satisfied that the District was loser to an amount somewhere from $354 to $550 through the confused manner in which the accounts were kept, and the careless manner in which they were audited. He has, therefore, placed at the disposal of the Directors $550, such part of which as shall be found due the district to be applied in repayment.

BROADCAST SOWING.—A farmer came jogging into town yesterday with a load of wheat, and doubtless counting the prospective effect upon his exchequer of the late bull movements in grain. As he jogged and counted on, his horses took fright at something, and dashed down Jefferson street to [illegible], strewing the farmer and his wagon and grain broadcast in the streets. Such an acreage of broadcast sowing was never before seen in this city, but expectations as to the crop to follow are not particularly sanguine.

AN OREGON NUGGET.—There is on exhibition at Ladd & Tilton's bank a nugget of gold, taken from the claim of Caldwell & Co., Baker county, Oregon, which is the healthiest looking specimen that we have looked upon since the days when Mad Canyon was the maddest placer in the miner's directory. It weighs 176 ounces, and is worth in coined dollars over $3,000, as it is almost entirely solid, pure gold. It was purchased of J. W. Virtue, gold dust broker of Baker City, by Capt. Ainsworth, who brought it to this city a few days since.

FIRE DEPARTMENT NOMINATIONS.—At a meeting of Columbian Engine Co. No. 3, last evening, Mr. Wm. O. Bruen was unanimously nominated as candidate for Chief Engineer of the Portland Fire Department. The election will take place on the first Monday of December.

At a regular meeting, held last evening, of the Vigilance Hook and Ladder Co. No. 1, Mr. Chas. D. Dietz received the unanimous vote of the company for Assistant Chief Engineer, at the next annual election.

TEACHERS' INSTITUTE.—The third regular meeting of the Multnomah County Teachers' Institute will be held at the Central School building, Portland, on Saturday, October 7th, beginning at 10 A. M. Subject for discussion: School Architecture.

The quarterly examination of teachers for the county will be held at the same time and place.

SHIPPING.—The *Shaddaw* went to sea from Astoria on Monday.

The ship *Dovenby* was run aground in the Columbia river opposite St. Helens yesterday.

ADMITTED TO CITIZENSHIP.—In the U. S. District Court, yesterday, August C. Scharr, of German birth, was admitted to citizenship.

PERSONAL.

Mr. C. A. Dolph arrived home yesterday afternoon, after an absence of something over two months on a visit to the Eastern States. He called at Salt Lake on his way back, and called upon Gov. Woods, who is just now in the midst of a lively misunderstanding with Brigham and the saints.

Among the passengers of note who arrived yesterday by the *Gussie Telfair* were Mr. Allen Francis, formerly American consul at Victoria, Gen. Tidball and family and Rev. Mr. Van Horn and family.

CHURCH NOTICES.—Divine service will be held this (Wednesday) evening at St. Stephen's chapel, Madison street, commencing at 7 o'clock, on behalf of the General Convention of the Episcopal Church, opened this day at the city of Baltimore. All are invited.

Rev. Mr. Kimball will preach, at half past 7 o'clock this evening, in the Unitarian Church.

OFF FOR SALEM.—Several of our retail dealers are off for the Fair Grounds, to fit up booths for trading purposes during the Fair. Among these, Messrs. Harry Oatman and Charley Martin, representatives of two family grocery houses who have joined forces for the Fair Ground campaign, went up yesterday. If anybody makes things buzz it will be Oatman and Martin.

ONCE MORE.—For want of something else sensational the Kalama *Beacon* has had that same old vein of coal discovered again, near Pumphrey's landing. We calculate that vein will answer the *Beacon* for at least three local items.

DEPOSITIONS IN LAND SUIT.—The parties in the long pending suit of Starr vs Stark, involving large real estate interests in this city, were engaged yesterday afternoon in taking depositions before Ralph Wilcox, Examiner.

PASSENGERS OVERLAND.—Passed Yreka, yesterday, bound for Portland, by Oregon and California stage: Mrs. Bardy, Mr. Brush, Mr. Sanger, Mrs. Scehner, Mrs. Guernsey.

At J. O'Neil & Co.'s, 95 First street, can be found the finest and largest stock of Clothing and Gents' Furnishing Goods in the city. The celebrated Star Shirt, a full supply, and the *Guanaco* Umbrella, the latest and best article out to keep off the Oregon mist. A look through J. O'Neil & Co.'s stock will benefit those investing. They sell at marvelously low figures.

Kohn & Fishel have received by the late steamers large invoices of clothing and gents furnishing, and they now have the largest and best assortment of goods in their line in the city. They sell low, and everybody can buy. Go to Kohn & Fishel's 91 Front street for bargains.

An Unprotected System.

Do not fancy because you feel strong that you are impregnable to sickness. Whole neighborhoods are frequently prostrated at this season by malarious fevers. Vigorous muscles and strong sinews, broad shoulders and sound lungs, are no defence against the mephitic vapors of autumn. Frames which have withstood the summer heat may succumb now. Many an athletic man, whose family depends for its support on his industry, now lies prostrate, weak and helpless as a babe, under the periodical assaults of chills and fever, or bilious remittent fever. This could not be if all were wise enough to provide against such a contingency, by toning and fortifying the system with Hostetter's Stomach Bitters. This approved vegetable tonic is absolutely harmless, so that it is sheer folly not to take it as a safeguard at a season when diseases of the liver, the stomach, the bowels, and indeed all the visceral organs are generally prevalent. To keep the system in order and insure health, or to put it in order when this precaution has been neglected, is the duty of every human being who values life. For both these purposes Hostetter's Bitters is designated, and it answers both. Petty local dealers are endeavoring, in many parts of the country, to substitute preparations made of impure and dangerous materials in its stead. Give them a wide berth. They are prepared by unskillful experimenters, who want to turn a penny at the expense of the public health.

WEDNESDAY MORNING, OCT. 4, 1871.

A Chapter on Railroads.

At the Minnesota State Fair, held at Minneapolis last month, Horace Greeley delivered the annual address, in which he had much to say of railroads and the necessity of ruling them instead of allowing them to rule the country. If railway kings practice extortion in the transportation of merchandise and passengers, he would urge Legislatures to prescribe rates of charges, which no railroad should be permitted to exceed. Further, he would have the States "confer with each other, with intent to establish just and reasonable rates of transporation for goods passing from one to, or through, another." A railroad, he said, can force a right of way anywhere. It represents that public interest in the construction of facile highways of transportation and travel to which individual convenience and individual choice must give way. The right of the landowner, then, is not absolute and indefeasible. He cannot do what he likes with his own. The public interests must be considered. But the same argument will hold against the railways. The railway king must be subjected to the same idea that the public interests are paramount. Hence extortionate charges, oppressive exactions on the part of the railways ought to be prohibited. The speaker said:

> I would do nothing unjust nor rash. "Live and let live" is the true rule. It is your interest and mine that those who construct railroads shall derive a fair income therefrom, so as to encourage them and others to build more railroads. Though half the railroads on earth traverse this country, we shall construct more and more year by year, and shall need them faster than we can construct them. I would deal generously with all who promote the settlement and civilization of our wild regions; but I would strenuously insist on the right of the State to prevent the choking up and delay of its chief highways by exorbitant and reckless charges.

There is good sense and sound logic in these positions. Equally sound is his position on the subject of land grants. In opposition to the senseless outcry against all land grants, he made these forcible statements, which go right to the core of the matter:

> You tell me of the public lands given away to monopolists. I challenge your statement, and insist that the nation has more lands, in value, than if it had never granted an acre to aid a railroad. For you cannot fairly measure lands by their superficial area alone. I saw millions of acres when I crossed the continent to California twelve years ago, that would have been very dear at five cents per acre before the Central Pacific railroad was built, since which, they are worth thirty times their value in 1859. Then you could not have supported an average family on a [illegible] of sage-brush desert that could now be made to subsist forty just such families. To talk of this road as having, in any practical sense, extracted or abstracted anything from the public domain, is to defy reason and insult common sense. If the whole region between the Missouri and the Sierra Nevada could be gridironed by four east and west and three north and south railroads, at a cost of half the public lands, "standing, lying and being" therein, the half remaining ungranted would not merely be worth far more, but would furnish twice as many homesteads, as the whole did or would without the railroads. While, therefore, I counsel caution, deliberation, circumspection, in making grants of public lands in aid of embryo railroads, I maintain that the policy is beneficent, and may yet be continued with advantage to the settlers and the [illegible]. Nor do I concur with those who say that railroads may and will be built without aid or lands granted. In the course of twenty-five [illegible] they might be; but even that is doubtful. Madness, if madness abounded in cash, might construct one railroad across the continent without public aid; but madness could never find the means of building a second iron track across fifteen hundred miles of arid waste and greasewood. And besides, since the public lands are enhanced in value immensely by the railroads that traverse them, it is but naked justice that they should defray a good share of the cost.

It would be hard to say that this subject has ever been better elucidated. We see the effects of the land-grant policy in our own State, where, without land grants, it is almost certain we would not have a mile of railroad to-day, nor perhaps no prospect of any. Mr. Greeley's argument is worthy of being repeated wherever it is necessary to answer those who narrowly and selfishly oppose judicious land grants for necessary railroads.

A convincing answer to the assertion so frequently put forth by an untruthful partisan press, to the effect that the Southern States are oppressed, their industry disorganized and their prosperity checked by the ill treatment and tyrannical course of the statesmen, is presented by the *Financial Chronicle* of September 9th, in the form of a statement of the cotton crop for the present year. The paper above named is an oracle in this matter, and at great expense has collected from all parts of the South full statistics of the cotton crop. The aggregate is 4,347,006 bales, which comes nearly up to the prodigious yield of the cotton crop that year amounting to [illegible] bales. Beyond doubt next year, if a fair season be had, the yield will go beyond that of 1860. The crop of the present year is 1,300,000 bales in excess of that of 1870. How feeble is party cant when met by such facts as these! We were told once that cotton could not be produced without slave labor. This was the ultimate argument of the slave propagandist, and was deemed a triumphant vindication of his position. We are told now that "Radical oppression" is impoverishing the Southern States. Yet they can gain 1,250,000 bales in the production of cotton in a single year, and the aggregate is now nearly up to the product of the most prosperous year of the days of slavery, and will next year go beyond it! Is there any wonder that a party which is so wrong and illogical in all its positions should always be defeated?

It is well understood that Mayor Hall of New York and his confederates in the Ring were extremely anxious to get Controller Connolly out of office, thinking that they could thus both quiet public clamor and have a chance to put a man of their own stamp in his place, who would conceal the evidences of fraud which are now published to the world. This was the cause of Hall's frantic efforts to remove Connolly. But the latter refused to sacrifice himself to save his associates who are equally guilty with him, preferring to have their company, if he must perish. This was the reason why he placed Mr. A. H. Green in the office, who is now giving publicity to the manner in which the Democratic party does it in the most Democratic city of the United States. Let citizens read this morning's dispatches, and say whether they want this system to become national. If they do they will, of course, labor to place the reins of government in the hands of the party that so manages things.

Yesterday we printed articles of incorporation of a Fire and Marine Insurance Company, which is to be purely and distinctively an Oregon institution. The corporators are well known and responsible men. An organization will be perfected shortly and subscriptions for stock solicited. This, as an Oregon enterprise, deserves the favorable consideration and support of our people. We may have more to say of it when it advances further.

A Strange Infatuation.

Theodore Tilton, the erratic, has created quite a sensation by writing a "Life" of the Woodhull, the notorious female who has given the woman suffrage movement a set-back by her advocacy of it. This "Life" the New York *Tribune* says is "certainly the most extraordinary book ever written out of Bedlam. Its richness of invention, its native ignorance, and its innocent immorality cause us to wonder whether the veteran romancer, Paul de Kock, who died lately, did not amuse his first leisure hours in the spirit world by dictating this preposterous book to the editor of the *Golden Age*." This is a characteristic extract from the volume:

> Engrossed in business affairs, nevertheless, at any moment Mrs. Woodhull would rather die than live, such is her infinite estimate of the other world over this; but she disdains all common place parleyings with the spirit realm, such as are had in ordinary spirit manifestations. On the other hand she is passionately eager to see the spirits face to face; to summon them at her will, and to communicate with them at her pleasure. Twice, as she unshakenly believes, she has seen a vision of Jesus Christ, honored thus doubly over St. Paul, who saw his Master but once, and then was overcome by the sight.

There are few more brilliant writers than Theodore Tilton, but the Woodhull has captured him, and he has fallen from a position which he will probably never regain. Few can pardon the moral insanity and blasphemous bosh, not to speak of the absurd monstrosities which this book exhibits, and of which the above extract will afford a specimen. Besides claiming that the Woodhull has had two interviews with Jesus Christ in person, and has thus been more highly honored than St. Paul himself, who had but one, and fainted at that, Theodore credits her with the performance of two miracles in bringing the dead to life; one being the case of her own son, and the other a woman of New York.

The biography starts out with the assumption that by fore-ordained fate its subject is to be elected Presidentess of the United States, and that pleasant fiction is kept up all the way through. For instance, we are told that Mrs. Woodhull was born the year the Queen of England was crowned, and was then [illegible] named after the young Queen because she had "ordained a gift to all her little namesakes of Anno Domini 1838." Theodore says:

> As Victoria Claflin was one of these, she has lately been urged to make a trip to Windsor Castle, to see the illustrious giver of these gifts, and to receive the special souvenir which the Queen's bounty is supposed to hold still in store for the [illegible] babe that uttered its first cry, as if to say, "Long live the Queen!" Mrs. Woodhull, who is now a candidate for the Presidency of the United States, should defer this visit till after her election, when she will have a beautiful opportunity to invite her elder sister in sovereignty—the mother of our mother country—to visit her fairest daughter, the Republic of the West.

So it will be seen that Theodore, with a faith that would remove mountains, assumes the election to the Presidency of the subject of his memoir. And then we have more bosh about her being "guided by the spirits and coming and going at their behest." The great Greek orator, Demosthenes, we are assured, has been "chief among her spiritual visitants," and "has been a majestic guardian to her from the earliest years of her remembrance." She describes him as "a matured man of stately figure, clad in a Greek tunic, solemn and graceful in his aspect, strong in his influence, and altogether dominant over her life." This spirit of Demosthenes, we are told, has assured the fair Victoria that she is to be elected President.

This, we are sure, will be enough of this "Life" to satisfy the most exacting of our readers. Theodore Tilton, it is evident, has become a tail of the Woodhull kite, along with two of the Woodhull's divorced husbands, whom she still succeeds adroitly in turning to her own account. The upshot of this literary venture will be the undoing of a young man who once gave promise of rising to a high position in literature, and the bringing upon the woman suffrage movement no little contempt.

An Estimate of "Joaquin" Miller.

The New York *Times* of September 18th presents an elaborate criticism of "Joaquin" Miller's poetry and poetic powers. It opens its remarks on his *Songs of the Sierras* with this paragraph:

> One of the ten poems in this volume no one is without a trace of a certain poetic power, and in two, dramatic interest, intensity of feeling, and a rythmic mastery of language are united in an unusual degree. The subjects are new to poetic treatment, but they are not new to literature—literature of a certain style and grade. Mr. Miller sings, in these *Songs of the Sierras*—a well chosen title for his volume—of the half-horse, half-alligator man—and woman, who within the last twenty or twenty-five years has moved westward from Old Kaintuck, and has "located"—if that can be said to "locate," morally—on the purrayries, and in the canyons and gulches of the Far West. The volume reads as to its matter and somewhat as to its manner, like one of the dime novels—almost any one of them reduced to rhyme, but not to reason. This is the impression of it as a whole; certain parts of it, as we have already said, manifest an unusual degree of poetic power, but not a high power, in the new candidate for the honors of the laurel.

After giving several specimens of his verse the *Times* says:

> From the passages already quoted a fair opinion may be formed of Mr. Miller's style, both of thought and versification. The former is extravagant, strained, and marred by a constant and conscious striving after effect; the latter free, easy, rolling, and sometimes rough. Neither, however, are without a certain charm, and diminishes constantly on acquaintance. It is marked with a paucity of ideas, a feebleness of fancy, and a parrot-like limitation of language, that causes him to repeat himself, both in thought and in rhyme, again and again in the same short composition. Indeed, some of his rhetorical effects are produced by the use of the same words in various order within a few lines. In the poem he tells that
>
> "The sun in fringes of the sea
> Was tangled;"
>
> and on the next page but one we read:
>
> "He said these things as he stood with the Squire
> By the river's rim in the fields of clover,
> While the stream flowed under and the clouds flew over,
> With the sun tangled in and the fringes afire."
>
> The tangling of sunbeams is a poor conceit enough at best, but plainly it has made no slight impression on Mr. Miller. And the four lines last quoted contain two ideas and two rhymes that he works over and over through fields of clover, and through fields of clover over and over, until the lines begin to seem like nonsense-verse made by boys tumbling over and over in heaps of clover, and in heaps of clover over and over, of a summer's evening in a hay field. And then brown girls and girls brown, with brown hands and hands brown are turning up so constantly that the book seems dun brown before we get through its gallery of brunette beauties who, like a certain little boy in the Sandwich Islands, appear to be half Indian and half missionary.

The critic next proceeds to consider "Kit Carson's Ride:"

> The hero, accompanied by a sort of Far-West, Leather-Stocking, is running off with a half-savage bride. The purrayrior takes fire, and the three ride for their lives to the Brazos, pursued by flames and buffaloes. The horses of the others give out, and Kit rides alone into the Brazos, his own horse blinded by the fire. Here, again, we don't get even our start without being clovered and overed and browned "out of all cess." The following lines are within the first twenty of the poem:
>
> "We lay in the grass and the sun-burnt clover
> That spread on the ground like a great brown cover
> Northward and southward, and west and away
> To the Brazos, to where our lodges lay,
> One broad and unbroken sea of brown,
> Awaiting the curtains of night to come down
> To cover us over and conceal our flight
> With my brown bride, won from an Indian town
> That lay in the rear the full ride of a night.
>
> We lounged in the grasses—her eyes were in mine,
> And her hands on my knee, and her hair was as wine
> In its wealth and its flood, pouring on and all over
> Her bosom wine-red, and pressed never by one;
> And her touch was as warm as the tinge of the clover
> Burnt brown as it reached to the kiss of the sun,
> And her words were as low as the lute-throated dove,
> And as laden with love as the heart when it beats
> In its hot eager answer to earliest love,
> Or the bee hurried home by its burden of sweets."
>
> Observe even here the penury of fancy and of language, besides that indicated by the clovering and overing and browning. The girl's hair was as wine and her bosom was wine-red. The truth is—and it is made manifest all through Mr. Miller's book—that his imagery is frequently suggested to him by the mere words that he uses, and he uses them again and again, deluded himself by their jingle, and deluding, it would seem, some of his readers who should have known better, into the belief that what sounds so prettily must have some meaning.
>
> We cannot leave this spirited sketch without exposing the wretched false sentiment with which it is informed and deformed. His horse Pache, the swiftest in the far West, is stolen for Kit by his brown bride; and when the flames overtake them, she falls behind, her own horse being unequal to the pace:
>
> "And now as she fell
> From the front, and went down in the ocean of fire,
> The last that I saw was a look of delight
> That I should escape—a love—a desire—
> Yet never a word, not one look of appeal
> Lest I should reach hand, or stay hand or stay heel
> One instant for her in my terrible flight."
>
> *And he lets her do this*, and rides into the Brazos "all alone" on her horse, and lives to tell the tale. And then because a civilized creature wants to buy the horse, he breaks out into a blast of sentimental "rot:"
>
> "Sell Pache! You buy him! A bag full of gold!
> You show him! Tell of him the tale I have told,
> Why, he bore me through fire, and is blind and is old!
> * * Now pack up your papers, and get up and spin
> To them cities you talk of. Blast you and your tin!"
>
> This is pitiful! "Tell of *him* the tale I have told!" "Of him!" And this creature left his bride burned to a crisp upon the prairie, while he rode off alone on the horse she had given him. We must have better evidence than that of Mr. Joaquin Miller before we will believe that Kit Carson was so mean-souled a being. If he were he would have been the better for some of the training of an effete civilization. A Western dandy who had been so *lache* would have been ashamed thereafter to show his face in Beacon street or the Fifth avenue.
>
> Mr. Miller's chief merit is a vivid imagination, of dramatic tendency; and to this he adds a very considerable skill in the manipulation of language. The great defect of his poems is the lack of originality. The newness of effect in them is due merely to their subjects, and to the use of Western words, and the description of Western people and scenery. In spirit and style he is a mere imitator at his best. If he is a young man, or a young writer, just feeling his poetic oats, this is not surprising to us, and should not be disheartening to him. In that case we may look for better things from him hereafter.

POLITICAL NOTES.

Tammany is still wrestling with impending fate. The leaders have "fallen out," and, being rogues, the prospect is that "honest men will get their due." The fact is that the members of the Tammany Ring are about equally involved, and they will make nothing by mutual recrimination.

Fernando Wood proposes that the bad men retire and the good men take the affairs of New York city into their own hands. Fernando thinks he sees one of the "good" men of whom he speaks whenever he looks in his glass, but he is not likely to get another chance at the city treasury by any such contrivance as this.

THE TERRITORIES.

It is understood that an effort to divide Walla Walla county will be pressed in the Washington Territory Legislature.

The United States Land Office at Lewiston has been opened with S. S. Slater, Register, and R. J. Monroe, Receiver.

How to be "Nobody."—The Boston *Traveler* gives the following directions how to be "a nobody:" "Young man, it is easy to be nobody! Go to the drinking saloon and spend your leisure time. You need not drink much now—just a little beer or some other drink. In the meantime play checquers, dominoes, or something else. If you read let it be "dime novels" of the day; then go keep your stomach full and your head empty; and in a few years you will be nobody, unless you should prove to be a drunkard or a professional gambler, either of which is worse than to be nobody.

CITY JAIL, PORTLAND, Oregon, June 7, 1871.

A. M. LOEVES & Co.: I was attacked with a severe case of rheumatism. It was in my thighs, hips, fingers, shoulder blade—indeed in all the joints of my body I suffered great pain and anguish. I was attended by a regular physician, but with no effect. I was induced to try your Oak Weed Remedy, and it immediately cured me up. I consider it, from my experience, the best remedy for rheumatism known.

"AVERILL CHEMICAL PAINTS."

THESE PAINTS ARE SO WELL KNOWN throughout the Atlantic States and their reputation so abundantly established for

Beauty, Permanence and Economy

That we can confidently recommend and guaranteed an entire satisfaction in their use.

THEIR COST is less than pure leads, and covers one fifth more surface, making them the most economical Paints in the market.

THEIR DURABILITY is unquestioned. They dry hard with a smooth and glossy surface and will not chalk, crack or peel off.

THEIR ADAPTABILITY.—They are already mixed and ready for use and require no oil, turpentine or dryers. Are sold of any desired shade, by the gallon only.

Testimonials:

Gen. James S. Negley, M. C., Pittsburg, Pa., writes Nov. 10, 1870: I have no hesitation in recommending the "Averill Chemical Paints" to those who regard economy and durability. It weathers our smoky atmosphere better than any Paints I have tested. The colors are rich and variable. Altogether I find them the CHEAPEST AND BEST."

"JACKSONVILLE, FLORIDA, CUSTOM HOUSE.—It looks as fresh and glossy as when first applied. I do not believe any LEAD AND OIL CAN EQUAL IT.
"WM. F. DOCKRAY."

I have carefully compared the cost and merits of the Averill Paints with White Lead and Oil and find 99 cents per gallon in favor of the former.

COSMOPOLITAN HOTEL.

CHANGE OF PROPRIETORSHIP.

H. H. PEARSON,
Late of the Russ House,

HAVING BOUGHT THE INTEREST OF MESSRS. Tubbs & Patten, of the Cosmopolitan Hotel, has secured a lease for a term of years of this well known and elegantly furnished Hotel. His previous reputation assures its being kept in first class style, while to order to keep pace with the times he intends to make important reductions in the scale of charges. His intention is to make it a family and business house, while his large connection with the travelling public, warrants him in expecting a large amount of country, Pacific Coast and Eastern patronage. The prices will range from two to three dollars a day for ordinary accommodations. Board by the week or month as per contract. The Table will be kept on the most liberal scale and many improvements introduced. The spacious reading room is the finest of its kind in the city, while the furniture and fittings generally are superior to those of any hotel in San Francisco. The house will be thoroughly overhauled. Mr. PEARSON assumes proprietorship this day, August 1st.
